

Corrugated Boxes Market to Reach \$80.78 billion with 4.4%CAGR Forecast to 2022

Corrugated Boxes Market to Grow at a 4.4%CAGR Forecast to 2022

PUNE, INDIA, October 10, 2016

/EINPresswire.com/ -- According to researchers, the Global [Corrugated Boxes](#) market is expected to grow from \$59.89 billion in 2016 to \$80.78 billion by 2022 with a CAGR of 4.4%. Growing urban population, growth of the e-commerce industry, and demand for pharmaceutical supplies are the key factors driving the market growth. Furthermore, factors such as increase in manufacturing activities, growth in the spending by consumers for packaged products are favorable factors which help in growing the demand for corrugated boxes. On the other hand, issues such as greenhouse gas emission during production and volatility of raw material costs hinders the growth of the market. Availability of substitute products to corrugated boxes is also a hurdle for the market growth.
