

Living Fuel Founders KC and Monica Craichy to Speak in Dallas Sunday at The Truth About Cancer Ultimate LIVE Symposium

They will share an inspiring story of hope from Monica's personal experience with depression and panic attacks and how others can overcome health challenges.

ORLANDO, FLORIDA, UNITED STATES, October 10, 2016 /EINPresswire.com/ -- KC and Monica Craichy, founders of Living Fuel, the Leader in Superfood Nutrition, will be featured speakers Sunday, Oct. 16, during The Truth About Cancer Ultimate LIVE Symposium at the Gaylord Texan Resort Hotel & Convention Center. They will share an intimate conversation on navigating the land mines of life and health with special guest, Mike Adams, the Health Ranger, and will be among 40 of the world's leading experts on natural health assembled for the three-day event.

Monica plans to open up about her past health struggles and how others can avoid what she faced. She was the picture of health on the outside, but the former Miss Florida and Miss Florida USA was suffering on the inside with depression, panic attacks and thoughts of suicide. She and her husband KC will share the keys they learned on their journey and how others can use those secrets to avoid or overcome their own health challenges.

Monica did not like the way her prescription medication was making her feel and KC did not like the fact it stripped his wife of her zest for life. Not wanting his wife to be a lifelong patient, KC immersed himself in research on nutrition and its effect on the body and mind. As a result, Monica's life changed for the better and the Living Fuel brand was formed.

"Monica's life was transformed through what we learned and we have since made it our mission to share that life-changing message with others," KC Craichy said. "We are excited to be a part of The Truth About Cancer Ultimate LIVE Symposium with such esteemed colleagues."

The Truth About Cancer Ultimate LIVE Symposium runs Oct. 14-16 and features presentations from the industry's leading minds on natural health and chronic disease prevention. Other speakers include Dr. Joseph Mercola, Dr. Stanislaw R. Burzynski, Dr. Andrew Wakefield, Dr. Ben Johnson, Jordan Rubin, Dr. Robert Scott Bell and many others.
