Analysts forecast the global box office market to grow at a CAGR of 6.95% during the period 2016-2020

PUNE, INDIA, October 12, 2016 /EINPresswire.com/ -- [Global Box Office Industry](#)

Analysts forecast the global box office market to grow at a CAGR of 6.95% during the period 2016-2020. In 2010-2015, the international box office revenue increased by 33%. The main reason for the growing success of the film industry is the increasing synchronization between the film makers and distributors regarding the screening of a movie in multiplexes. The movie screens also develop in quality as the 3D effects used in the films improves. Despite technological advances, high-end home theaters and television units are unable to give a tough competition to the box office market as the moviegoers are more inclined toward the overall experience of the movie that includes visual and 3D effects and screening in IMAX theaters.
