

# Commercial Aircraft Turbine Blades and Vanes Market Gearing Up For Next-Gen Airframes with CAGR of around 6% during 2021

Commercial Aircraft Turbine Blades and Vanes Market by Aircraft

Class(Narrowbody, Widebody, and Regional Transport Aircraft) and by Geography - Forecast To 2021

PUNE, MAHARASHTRA, INDIA, October 13, 2016 /EINPresswire.com/ -- Market Synopsis of [Global Commercial Aircraft Turbine Blades and Vanes Market](#)

The Major Key Players are  
GE Aviation,GKN  
Aerospace,Rolls  
Royce,Turbocam  
International,UTC Aerospace  
Systems,Chromalloy,Hi-Tek  
Manufacturing,Moeller  
Aerospace ,Snecma

”

*Market Research Future*

The Global Commercial Aircraft Turbine Blades and Vanes Market is expected to grow at a CAGR of around 6% during 2016-2021. Growing demand for next gen aircraft with light weight composite turbine blades, replacement & Upgradation of aero engine parts, and growing demand for improved aero engine components are the factors driving the market growth.

Key Players

- GE Aviation
- GKN Aerospace

- Rolls Royce
- Turbocam International
- UTC Aerospace Systems
- Chromalloy
- Hi-Tek Manufacturing
- Moeller Aerospace
- Snecma.

Target Audience

- Turbine Blades and Vanes OEMs
- Engine OEMs

- Component Suppliers
- Potential Investors
- Key executive (CEO and COO) and strategy growth manager

Global Commercial Aircraft Turbine Blades and Vanes Market (\$ billion), 2016-2021

As per the MRFR analysis, cost associated with materials, technical issues related to the fixture of turbine blades, and spare parts pricing transparency are the factors limiting the market growth.

Taste the market data and market information presented through more than 50 market data tables and figures spread in 103 numbers of pages of the project report.

#### Study Objectives of Global Border Security Market

- To provide detailed analysis of the market structure along with forecast for the next 5 years of the various segments and sub-segments of the Global Commercial Aircraft Turbine Blades and Vanes Market
- To provide insights about factors affecting the market growth
- To analyse the Global Commercial Aircraft Turbine Blades and Vanes Market based on various factors- price analysis, supply chain analysis, porter’s five force analysis etc.
- To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- North America, Europe, Asia, and Rest of the World (ROW)
- To provide country-level analysis of the market with respect to the current market size and future prospective
- To provide country-level analysis of the market for segment by aircraft class
- To provide strategic profiling of key players in the market, comprehensively analysing their core competencies, and drawing a competitive landscape for the market
- To track and analyse competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the Global Commercial Aircraft Turbine Blades and Vanes Market

Regional and Country Analysis of Global Commercial Aircraft Turbine Blades and Vanes Market  
As per the MRFR analysis, the APAC region will continue its dominance in the forecast period to reach \$XX billion, to grow at a CAGR of 8%. Whereas, EMEA and Americas will grow at a CAGR of XX% and XX%, respectively during the forecast period.

The Major Topics Included in Table of Content are:

1. Introduction
2. Executive Summary
3. Scope of the Study
4. Assumptions and Limitations
5. Research Methodology
6. Market Size Estimation
7. Market Factor Analysis
8. Market Dynamics
9. Market Segmentation
10. Global Commercial Aircraft Turbine Blades And Vanes Market By Aircraft Class, 2016-2021
11. Global Commercial Aircraft Turbine Blades And Vanes Market By Region, 2016-2021
12. Competitive Landscape
13. Company Profile
  - 13.1 GE Aviation
    - 13.1.1 Company Overview
    - 13.1.2 Product/Business Segment Overview
    - 13.1.3 Key Financial
    - 13.1.4 Key Developments And Strategies
  - 13.2 GKN Aerospace
    - 13.2.1 Company Overview
    - 13.2.2 Product/Business Segment Overview
    - 13.2.3 Key Financial
    - 13.2.4 Key Developments And Strategies
  - 13.3 Rolls Royce
    - 13.3.1 Company Overview
    - 13.3.2 Product/Business Segment Overview
    - 13.3.3 Key Financial
    - 13.3.4 Key Developments And Strategies
  - 13.4 Turbocam International
    - 13.4.1 Company Overview
    - 13.4.2 Product/Business Segment Overview
    - 13.4.3 Key Financial
14. Conclusion

## 15. Appendix

The report also covers country level analysis:

### Americas (North & Latin)

- US
- Canada
- Brazil
- Others

### Europe

- Germany
- France
- Italy
- Spain
- U.K
- Rest of Europe

### Asia – Pacific

- China
- India
- Japan
- Australia/New Zealand
- Rest of Asia-Pacific

### Middle East & Africa

- UAE,
- Kuwait
- Israel
- Rest of Middle East & Africa

The market report for Global Commercial Aircraft Turbine Blades and Vanes Market of Market Research Future comprises of extensive primary research along with the detailed analysis of qualitative as well as quantitative aspects by various industry experts, key opinion leaders to gain the deeper insight of the market and industry performance. The report gives the clear picture of current market scenario which includes historical and projected market size in terms of value and volume, technological advancement, macro economical and governing factors in the market.

[Global Aircraft Engine MRO Market Research Report](#)

As per the MRFR analysis, factors restraining the market are challenges associated with the MRO of new composite material, and high custom duties and taxes, and increased threat from OEMs.

Emergence of additive manufacturing for MRO parts, introduction of mobile technology, and

usage of radio-frequency identification (RFID) to improve efficiency are the ongoing trends which will impact the market during the forecast period.

About Market Research Future:

At Market Research Future (MRFR), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.
