

IT Governance partners with Quadri Consulting Ltd to deliver cyber security solutions

ELY, CAMBRIDGESHIRE, UNITED KINGDOM, October 19, 2016 /EINPresswire.com/ -- IT Governance, the leading provider in cyber security solutions and expertise, is excited to announce its partnership with experienced security consultants, [Quadri Consulting Ltd](#), to deliver IT Governance's cyber security products and services to their client base.

Alan Calder, the founder and chief executive officer of IT Governance, says: "We're delighted to be working in partnership with Quadri Consulting to help organisations achieve the highest standard for cyber security practices through training courses, e-learning, consultancy services, penetration testing, documentation toolkits and books. The partnership gives Quadri Consulting full access to IT Governance's portfolio to deliver our products and services to their clients."

IT Governance's [partnership programme](#) is designed to help organisations provide an extended portfolio of cyber security products and services, and letting them take advantage of sales, financial and technical support and benefits, such as discounted training and certification, partner events and access to webinars and training videos.

Jeremy Quadri, principal consultant at Quadri Consulting Ltd, said: "We run a UK-based cyber security company focused on securing e-commerce businesses and financial institutions; we know that offering Cyber Essentials certification will not only increase our revenue with little effort but, above all, we believe it'll empower our customer's innovation, not get in their way."

Cyber Essentials is the UK Government-backed scheme that defines a baseline of cyber security measures and can help prevent "around 80% of cyber-attacks". IT Governance encourages potential partners to take advantage of the discounted rates and get certified to Cyber Essentials in order to resell the IT Governance Cyber Essentials packaged solutions.

"With the EU General Data Protection Regulation (GDPR) coming into force in 2018 and the UK Government backing the Cyber Essentials scheme, cyber security has become a top priority and an increasing demand for businesses worldwide," Alan Calder continued.

IT Governance's affiliate programme enables organisations to monetise their [website](#) audience by providing cyber security solutions. The reseller programme, meanwhile, provides partners with a range of benefits and discounts to help maintain customer relationships and control sales.
