

## Avatar Master Peggy Verret to be Featured on CUTV News Radio

SLIDELL, LOUISIANA, USA, October 19, 2016 /EINPresswire.com/ -- Life is about learning and learning continuously. In school, we were taught rote memorization, but the best way to live is to live creatively. You draw on the best parts of yourself when you're in a creative space. It's about using the power of your imagination to create something new.

"I'm interested in helping others find their passion," says Avatar Master Peggy Verret. "Living deliberately is the path to doing so."

As a registered nurse, Peggy's holistic philosophy and care led her to many advanced trainings and certifications in coaching, mind-body medicine, energy work, and nutrition. Today, she is a teacher of The Avatar Course, the most advanced self-development program.

Developed by Harry Palmer, the Avatar Course is a skill-building course where you learn and practice skills to manage your consciousness. Avatar is about helping people hone their skills to find their own creative source power. Peggy says the course gives you an opportunity to examine the ways you've held yourself back.

"If you don't change your thinking you can't change your patterns," says Peggy. "When you expand your awareness you have more opportunities to shift to a healing state. The work we do in this course is on a consciousness level. I like to help people disentangle from old ways of being to find their inner wisdom. They have it within them all along."

Peggy describes her clients as people who want more out of life. They want something new and uplifting and they know there's always more to search for.

"Which of the windows do you want to open and move through?" says Peggy. "It's exciting that we all have this power and ability. Don't you want more?"

CUTV News Radio will feature Peggy Verret in an interview with Doug Llewelyn on October 21st at 12pm EDT.
