

Global Automotive Fuel Injection System Market Likely to Grow at 6% CAGR During 2016 to 2021, Says Stratview Research

Extensive Market Research Report from Stratview Research Includes Trends, Forecasts, Competitive Analysis and Strategic Growth Opportunities.

DETROIT, MI, USA, October 17, 2016

/EINPresswire.com/ -- Stratview

Research announces the addition of a new market research report on [Global Automotive Fuel Injection System Market](#) by Vehicle Type (Small Car, Mid-Size Car, Large Car, LCV, SUV, and Others), by Fuel Type (Gasoline and Diesel), by Injection Type (Gasoline Direct, Gasoline Port, and Diesel Fuel), by Component Type (Engine Control Unit, Fuel Injector, Fuel Pressure Regulator, and Fuel Pump), and by Region (North America, Europe, Asia-Pacific, and Rest of the World), Trend, Forecast, Competitive Analysis, and Growth Opportunity: 2016-2021.

This market report from studies the fuel injection system market in the automotive industry over the period 2010 to 2021. The research report provides detailed insights on the market dynamics to enable informed business decision making and growth strategy formulation based on the opportunities present in the market.

The Global Automotive Fuel Injection System Market: Highlights

Stratview Research foresees a sustainable growth of CAGR 6% in the fuel injection system market over the next five years (2016 – 2021), which offers an opportunity to the automotive industry players to align themselves with the market growth.

There are a number of factors bolstering the growth of fuel injection systems in the global automotive industry. Increasing demand for the fuel efficient vehicles, advancement in fuel injection systems technology, increasing disposable income, and imposition of stringent government regulations in both developed and developing regions are driving the demand of

The Publisher, a Global Market Intelligence Firm

fuel injection system in the global automotive industry.

Gasoline direct injection system will continue to gain market acceptance in the global automotive fuel injection systems market. Gasoline direct injection system is continuously replacing traditional gasoline port fuel injection system. Diesel injection systems market is expected to experience a sustainable growth during the forecast period, driven by European region.

Asia-Pacific is expected to experience the fastest growth over the next five years and remain the largest market for fuel injection system in the global automotive industry. The growth in Asia-Pacific is largely driven by increasing production of passenger vehicles in China and India to meet the regional demand. Brazil is also likely to offer a healthy growth opportunity in the fuel injection systems market in the global automotive industry.

The key fuel injection system manufacturers in the global automotive industry are Robert Bosch, Continental AG, Delphi Automotive PLC, Denso Corporation, Infineon Technologies AG, Hitachi Ltd., Magneti Marelli Spa. New product development, collaboration with auto OEMs, and regional expansion are key strategies adopted by the key players to gain competitive edge in the market.

Report Features

This industry research report from Stratview Research provides market intelligence in the most comprehensive manner. The report structure has been kept such that it offers maximum business value. It provides critical insights on the market dynamics and will enable strategic decision making for the existing market players as well as those willing to enter the market. The following are the key features of the research report:

- Market structure: Overview, industry life cycle analysis, supply chain analysis.
- Market environment analysis: Growth drivers and constraints, Porter's five forces analysis, SWOT analysis.
- Market trend and forecast analysis.
- Market segment trend and forecast.
- Competitive landscape and dynamics: Market share, product portfolio, product launches, etc.
- Attractive market segments and associated growth opportunities.
- Emerging trends.
- Strategic growth opportunities for the existing and new players.
- Key success factors.
