

Aston to Introduce Its New Luxury Portfolio of Freestanding Tubs & Floor Mount Tub Fillers This Fall

This Fall home improvement season, Aston will be expanding its freestanding tub portfolio by introducing 7 new luxury models and 4 new floor-mount tub fillers.

DALLAS, TEXAS, UNITED STATES, October 18, 2016 /EINPresswire.com/ -- Aston, the Dallas, Texas based [completely frameless shower](#) company, is expanding their luxury bathroom product portfolio with new freestanding acrylic tubs and introducing an entirely new line accompanying collection of floor-mount tub fillers for the fall home improvement season. This expansion into the freestanding tub sector will see seven (7) new acrylic [freestanding tubs](#) and four (4) [floor mount tub fillers](#) be introduced to the North American market. Each new tub model has the ability to complimentary pair with each new tub filler model.

“

Today, we re-introduce our roots in the form of these gorgeous, quality acrylic tubs and tub fillers to all of our current and new North American customers.

Richard Caplan

“Aston’s heritage and history began in acrylics, and for decades achieved a worldwide success in the industry, both residential and commercial. Today, we re-introduce our roots in the form of these gorgeous, quality acrylic tubs and tub fillers to all of our current and new North American customers.” Richard Caplan, Director of Marketing exclaims. “This decorative plumbing trend has been impossible to ignore, and one of our major manufacturing and design strengths happens to exist in this field.”

The freestanding tub collection will be available in a number of widths, from 59-in to 74-in, in a number of shapes: modern oval, rectangular, asymmetric oval, asymmetric rectangular and scoop-neck oval. All tubs are constructed of durable fiberglass-enforced acrylic that keeps water temperature consistent and makes it to clean and maneuver, recessed slim-line design overflow, and their own pop-up drain kits, which are included. All tubs are UPC/cUPC certified. The stunning tub filler faucet collection each are crafted with their own exterior styling, but all feature the same features: brass body, tube & thermostatic water wand handset, pairing base, mounting hardware, polished chrome finish and UPC/cUPC certified.

Terra Harbour, Director of Sales, explains, “[It would seem like] for years our build, plumbing and design partners would ask Aston if we would and could supply them freestanding tubs with their

existing orders of our popular completely frameless shower doors and enclosures. We're ready to meet that demand and are pleased to say that moment is now."

Early model prototypes drew and impressed the large crowds at the Kitchen & Bath Industry Show (KBIS 2016) earlier in the year in Las Vegas, Nevada.

The new freestanding tub and floor mount tub filler collections will be available in the Fall with all major home improvement and home décor retail partners, as well as the network of showrooms around the country.

For more information about Aston's new freestanding tub collection, along with their top-selling completely frameless shower door, tub and enclosure collection, including the new oil rubbed bronze finish and frosted glass models, please email press@astonbath.com.
