The Master of Quality Supplier Award program recognizes outstanding suppliers who demonstrate a commitment to continuous improvement through excellence in quality, delivery, technology and cost performance as measured on a Balanced Scorecard.

Chief Operating Officer Roger Nielsen praised the suppliers, stating "2015 was a very successful year for Daimler Trucks North America. We continued to be the North America's quality and market share leader and maintained our position as a technology leader.

Our suppliers play a significant role in our success as they work in partnership with Daimler Trucks North America to help the company meet its goals. The Masters of Quality award winners represent the 'best of the best' amongst our suppliers and their work is crucial to our enduring success."

General Manager of Quality and Supplier Management Paul Romanaggi also congratulated the winners stating, "In 2015, we continued to increase our production volume to meet the increasing demand for our products. Our Masters of Quality suppliers ensured on-time delivery of quality parts to our manufacturing plants day after day. We were able to provide our customers with the best value and significant competitive advantages due in part to the level of excellence provided by our Masters of Quality suppliers."
