Research announces the addition of a new market research report on [Global Isostatic Graphite Market](#) by

Application Type (Electrode, High Temperature Applications, Electrical Discharge Machining, Polysilicon Production, Silicon Crystal, Frictional Products, Parts & Components, and Others), by End Use Industry (Metal,

Automotive, Photovoltaic, Electricals & Electronics, Industrial, and Others), by Sales Channel (Direct Sales and Distributors), and by Region (North America, Europe, Asia-Pacific, and Rest of the World), Trend, Forecast, Competitive Analysis, and Growth Opportunity: 2016-2021

This market report from Stratview Research studies the global isostatic graphite market over the period 2010 to 2021. The research report provides detailed insights on the market dynamics to enable informed business decision making and growth strategy formulation based on the opportunities present in the market.

The Global Isostatic Graphite Market: Highlights

Stratview Research foresees a healthy growth in the global isostatic graphite market over the next five years (2016 – 2021), which offers an opportunity to the industry players to align themselves with the market growth. Cerium oxide is the most dominant rare earth metal accounting for 38% of the market in 2015, followed by Lanthanum oxide with 24% share. There are a number of factors bolstering the growth of global isostatic graphite market. Solar Photovoltaic, Semiconductor, and EDM (Electrical Discharge Machining) are expected to drive the growth of the isostatic graphite market during the forecast period.

The Publisher, a Global Market Intelligence Firm

Japanese companies own majority of the global isostatic graphite market share and are expected to remain the leading companies in the near future.

Asia-Pacific region is the major consumer of the isostatic graphite worldwide wherein China is the leading consumer and has been growing at a double digit CAGR during the last ten years. Emerging Asian countries, such as China and India are fueling the growth in the Asia-Pacific region and are likely to do so over the next five years.

The key isostatic graphite manufactures are Baofeng Five-Star Graphite, Datong Xincheng New Material, IBIDEN Co, GrafTech International Holdings Inc, Mersen Group, Nippon Graphite Industries, Co, SGL Carbon SE, Tokai Carbon Co, and Toyo Tanso.

New product development, capacity expansion, and regional expansion are the key strategies adopted by the key players to gain competitive edge in the market.

Report Features

This industry research report from Stratview Research provides market intelligence in the most comprehensive manner. The report structure has been kept such that it offers maximum business value. It provides critical insights on the market dynamics and will enable strategic decision making for the existing market players as well as those willing to enter the market. The following are the key features of the research report:

- Market structure: Overview, industry life cycle analysis, supply chain analysis.
- Market environment analysis: Growth drivers and constraints, Porter's five forces analysis, SWOT analysis.
- Market trend and forecast analysis.
- Market segment trend and forecast.
- Competitive landscape and dynamics: Market share, product portfolio, product launches, etc.
- Attractive market segments and associated growth opportunities.
- Emerging trends.
- Strategic growth opportunities for the existing and new players.
- Key success factors.
