

# Epson TM-C7500GE Graphics Edition Color Label Printer Expected to Ship October 31st to Customers in Canada

*DuraFast Label Company now accepting orders for Epson's newest industrial grade color label printer with Wasatch SoftRIP software*

TORONTO, ONTARIO, CANADA, October 19, 2016 /EINPresswire.com/ -- The new edition of Epson's popular high speed [color label printer](#), the [Epson TM-C7500GE](#), is a special bundle that includes the [Epson TM-C7500G \(gloss\) color label printer](#) along with sophisticated color and raster image control software (Wasatch SoftRIP), free SoftRIP technical support for six months, and Epson's onsite service plan for one year. The Epson TM-C7500GE (Graphics Edition) will be shipping in Canada starting the first week of November 2016 from DuraFast Label Company.

In anticipation of its release, DuraFast Label Company is now accepting advanced orders. DuraFast's President, Basat Khalifa, said, "Bundling the Wasatch SoftRIP RIP software and the technical support and onsite service with the Epson TM-C7500G is a fantastic bargain for digital print shop owners and businesses that print their own prime labels. This color label printer on its own is an extremely capable prime label printer, one that has been well received by our customers. Now with the Wasatch SoftRIP upgrade, support for continuous media, precision color matching, and CMYK raster image control sweeten the deal. The Epson TM-C7500GE serves as a mini label press, which can be used with a digital label cutter and finishing system to die cut the labels."

Khalifa also explained that the current models of the Epson ColorWorks C7500 or C7500G can easily be upgraded to the graphics edition with a firmware update and the addition of both the Wasatch SoftRIP raster image control software and Epson's onsite service. "Our label printing consultants can help with a new purchase of the Epson TM-C7500GE or an upgrade package. Simply call our Toronto, Canada office, and we'll be happy to help."

With a retail price of \$12,758 CAD, the new Epson TM-C7500GE is expected to be a popular choice for prime color label printing.
