

Global Protective Fabrics Market Likely to Grow at 4.0% CAGR Over the Next Five Years (2016-2021): Stratview Research

Extensive Market Research Report from Stratview Research Includes Trends, Forecasts, Competitive Analysis and Strategic Growth Opportunities.

DETROIT, MI, USA, October 20, 2016 /EINPresswire.com/ -- Stratview Research announces the addition of a new market research report on [Global Protective Fabrics Market](#) by Fiber Type (Aramid, Cotton, PBI, Polyamide, Polyolefin, Polyester, and Others), by Fabric Type (Fire & Heat Resistance, Chemical Resistance, UV Resistance, and Others), by End Use Industry Type (Building & Construction, Military, Firefighting, Healthcare, Oil & Gas, and Others), by Region (NA, Europe, APAC, ROW), Trend, Forecast, Competitive Analysis, and Growth Opportunity: 2016 – 2021.

This market report from Stratview Research studies the global protective fabrics market over the period 2010 to 2021. The research report provides detailed insights on the market dynamics to enable informed business decision making and growth strategy formulation based on the opportunities present in the market.

The Global Protective Fabrics Market: Highlights

Stratview Research foresees a robust growth of 4.0% CAGR in the global protective fabrics market over the next five years (2016 – 2021), which offers an opportunity to the advanced materials industry players to align themselves with the market growth.

There are a number of factors bolstering the growth of global protective fabrics market. Rising concern of military personnel protection, stringent government regulations, such as OSHA regarding safety of workers, and growth in the end use industries are some of the major growth drivers of the market.

The author cited that fire & heat resistance protective fabrics are expected to remain the largest fabric type during the forecast period. They are used to manufacture helmets, bullet proof jacket vests, vehicle armor, footwear, and gloves for various industries, such as military and industrial. Strict government regulations regarding safety of workers in metal (steel & aluminum), energy (oil & gas), transportation (automotive and commercial vehicle), and building & construction industries in developed countries, such as the US, Germany, and the UK, and rising concern for the protection of military personnel are driving the fire & heat resistance protective fabrics market.

The Publisher, a Global Market Intelligence Firm

Building and construction industry is expected to remain the largest consumer of protective fabrics during the forecast period. The segment is largely driven by stringent government regulations regarding safety of workers in European and North American countries. Healthcare applications segment is expected to witness the fastest growth over the next five years. The growing end-use industry and increasing demand for safe medical treatments are some of the major growth drivers of the protective fabrics market in the healthcare industry.

The key protective fabric manufacturers are 3M Company, E. I. Du Pont De Nemours and Company, Koninklijke Ten Cate NV, Teijin Limited, Kolon Industries, Inc., and W. L. Gore & Associates, Inc. New product development, applications development, and strategic alliances are the key strategies adopted by the key players to gain competitive edge in the market.

Report Features

This industry research report from Stratview Research provides market intelligence in the most comprehensive manner. The report structure has been kept such that it offers maximum business value. It provides critical insights on the market dynamics and will enable strategic decision making for the existing market players as well as those willing to enter the market. The following are the key features of the research report:

- Market structure: Overview, industry life cycle analysis, supply chain analysis.
- Market environment analysis: Growth drivers and constraints, Porter's five forces analysis, SWOT analysis.
- Market trend and forecast analysis.
- Market segment trend and forecast.
- Competitive landscape and dynamics: Market share, product portfolio, product launches, etc.
- Attractive market segments and associated growth opportunities.
- Emerging trends.
- Strategic growth opportunities for the existing and new players.
- Key success factors.

Stratview Research has a number of high value market reports in the global aerospace & defense industry. Please refer to the following link to browse through our reports:

About Stratview Research

Stratview Research is a global market intelligence firm providing wide range of services including syndicated market reports, custom research and sourcing intelligence across industries such as Advanced Materials, Aerospace & Defense, Automotive & Mass Transportation, Consumer Goods, Construction & Equipment, Electronics and Semiconductors, Energy & Utility, Healthcare & Life Sciences and Oil & Gas.

We have a strong team of industry veterans and analysts having an extensive experience in executing custom research projects for mid-sized to Fortune 500 companies in the areas of Market Assessment, Opportunity Screening, Competitive Intelligence, Due Diligence, Target Screening, Market Entry Strategy and Voice of Customer studies.

Stratview Research is a trusted brand globally, providing high quality research and strategic insights that help companies worldwide in effective decision making.
