Report features investigational drugs from across globe covering over 20 therapy areas and nearly 3,000 indications. Drug profiles featured in the report undergoes periodic review following a stringent set of processes to ensure that all the profiles are updated with the latest set of information. Additionally, various dynamic tracking processes ensure that the most recent developments are captured on a real time basis.

The report helps in identifying and tracking emerging players in the market and their portfolios, enhances decision making capabilities and helps to create effective counter strategies to gain competitive advantage.

Scope

- The report provides a snapshot of the global therapeutic landscape of Reflux Esophagitis

(Gastroesophageal Reflux Disease)

- The report reviews pipeline therapeutics for Reflux Esophagitis (Gastroesophageal Reflux Disease) by companies and universities/research institutes based on information derived from company and industry-specific sources
- The report covers pipeline products based on various stages of development ranging from pre-registration till discovery and undisclosed stages
- The report features descriptive drug profiles for the pipeline products which includes, product description, descriptive MoA, R&D brief, licensing and collaboration details & other developmental activities
- The report reviews key players involved Reflux Esophagitis (Gastroesophageal Reflux Disease) therapeutics and enlists all their major and minor projects
- The report assesses Reflux Esophagitis (Gastroesophageal Reflux Disease) therapeutics based on drug target, mechanism of action (MoA), route of administration (RoA) and molecule type
- The report summarizes all the dormant and discontinued pipeline projects
- The report reviews latest news related to pipeline therapeutics for Reflux Esophagitis (Gastroesophageal Reflux Disease)

Reasons to buy

- Gain strategically significant competitor information, analysis, and insights to formulate effective R&D strategies
- Identify emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage
- Identify and understand important and diverse types of therapeutics under development for Reflux Esophagitis (Gastroesophageal Reflux Disease)
- Identify potential new clients or partners in the target demographic
- Develop strategic initiatives by understanding the focus areas of leading companies
- Plan mergers and acquisitions effectively by identifying key players and it's most promising pipeline therapeutics
- Devise corrective measures for pipeline projects by understanding Reflux Esophagitis (Gastroesophageal Reflux Disease) pipeline depth and focus of Indication therapeutics
- Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope
- Modify the therapeutic portfolio by identifying discontinued projects and understanding the factors that drove them from pipeline
