

Automotive Position Sensors Market to surpass USD 2 Billion mark by 2022

Market Research Future published a Cooked Research Report on Automotive Position Sensors market.

PUNE, MAHARASHTRA, INDIA, October 21, 2016 /EINPresswire.com/ -- The global market for Automotive Position Sensors is expected to grow at a CAGR of about 8% between 2016 and 2022. The changing focus of the Automotive Industry to technological trends such as autonomous driving, connectivity and electrification is expected to boost the demand in the [Automotive Position Sensors Market](#). Increasing integration of position sensors in vehicles portray a positive outlook of continuous growth in the Automotive Position Sensor market.

“

Key players: Analog Devices Inc, Avago Technologies, Bosch Sensortec GMBH, Bourns Inc, Continental Corpo, CTS Corporation, Delphi Automotive, GE Measurement & Control Solutions, Gill Sensor& Control”

Market Research Future

Automotive Position Sensors Market

Increasing integration of position sensors in vehicles portray a positive outlook of continuous growth in the Automotive Position Sensor market. Stringent Government regulations regarding automobile safety and increasing global car production at a rate of 4% have also significantly contributed to the growth of this market.

Key Players

- Analog Devices Inc
- Avago Technologies
- Bosch Sensortec GMBH
- Bourns Inc

- Continental Corporation
- CTS Corporation
- Delphi Automotive
- Denso Corporation
- GE Measurement & Control Solutions
- Gill Sensor& Control

- Hella KGAA
- Infineon Technologies
- IXP Semiconductors
- Sensata Technoliges
- RW Automotive INC
- Stoneridge INC

Market Research Analysis:

Increasing focus towards production optimization, and growing number of mature oil fields are major driving factors for the Automotive Position Sensors market. North America held the largest share within the global Automotive Position Sensors market is expected to be the dominant market during he forecast period as well. Electric submersible pumps contribute a major part within the global Automotive Position Sensors Market as compared to other lift types. With rapid technological development the Position sensor market in North America region is expected to show high growth. Asia-Pacific is another region which is showing high potential mainly due to the increase in the number of passenger vehicles in this region.

Market Segmentation

By Type

- o Multi-axis
- o Angular
- o Linear

Vehicle Type

- o High End
- o Mid End
- o Low End
- o Electric

By Region

- o America (North & Latin)
- o Europe
- o Asia – Pacific
- o Middle East & Africa

Key Findings

- o The global market volume for automotive position sensors was around 1.3 billion units in 2014
- o The global market value of automotive position sensors accounted for almost \$1 billion in 2014
- o Electric vehicles sensors will be growing at the fastest CAGR at around estimated CAGR of 22.2%
