

Robotic Fellowship Course – Best Surgeons and Gynecologists can Get Trained

The World Laparoscopy Hospital is Premier International Institute to offer Da Vinci Robotic Surgery Hands on Training for Surgeons, Urologist and Gynecologists

GURGAON, HARYANA, INDIA, October 21, 2016 /EINPresswire.com/ -- Da Vinci Surgical System – A robotic minimally invasive surgical system, which is approved and in practice from the year 2000. The biggest advantage of utilizing Da Vinci Robotic Surgical System is it designed to facilitate the complex surgical process with a minimally invasive approach and the entire surgical process will be controlled by the surgeon.

The new innovative health care system “Da Vinci Surgical System” was highly used for prostatectomy, repairing cardiac valve, and also on various gynecologic surgical process. According the trustable sources, it is estimated that around 200,000 surgeries are successfully done by using this innovative system in 2012. On account of its high successes, less risk factors, and accuracy surgeons from

all over the world are opting Da Vinci Surgical System for complex surgeries. Also for surgeons and gynecologists it's highly suggested undergoing professional training program to gain efficient knowledge about the Da Vinci Surgical System.
