

# "TiBag" an Entrepreneur's Solution for Mobile Professionals with Laptops and Tablets

*Entrepreneur creates shoulder bag for laptops and tablets, when he couldn't find a product to meet his needs.*

SAN DIEGO, CA, USA, October 25, 2016 /EINPresswire.com/ -- Whenever Creative Director Sebastian Sindermann would visit his clients he encountered a problem – he needed too many separate carrying cases for his laptop, tablet, and other things. “Why is there not one simple solution to carry everything?” Sebastian recalls. What was on the market was either too small or too big and almost nothing was designed with laptops and tablets in mind. Not to mention, quite a few of them were really expensive and he didn't want to spend a whole lot.

His dilemma brought out the entrepreneur in him and he said, “screw it, I'm making my own.”
