

Global Automotive Cylinder Head Market Anticipated to Grow at 3.2% CAGR During 2016 to 2021, Says Stratview Research

Extensive Market Research Report from Stratview Research Includes Trends, Forecasts, Competitive Analysis and Strategic Growth Opportunities.

DETROIT, MI, USA, October 24, 2016 /EINPresswire.com/ -- Stratview

Research announces the addition of a new market research report on [Global Automotive Cylinder Head Market](#) by Vehicle Type (Passenger Car, Light Commercial Vehicle, and Medium & Heavy Duty Commercial Vehicle), by Material Type (Cast Iron, Aluminum, and Titanium), by Region (NA, Europe, APAC, RoW), Trend, Forecast, Competitive Analysis, and Growth Opportunity: 2016 - 2021

This market report from Stratview

Research studies the automotive cylinder head market over the period 2010 to 2021. The research report provides detailed insights on the market dynamics to enable informed business decision making and growth strategy formulation based on the opportunities present in the market.

The Global Automotive Cylinder Head Market: Highlights

Stratview Research foresees a good growth of CAGR 3.2% in the automotive cylinder head market over the next five years (2016 – 2021), which offers an opportunity to the automotive industry players to align themselves with the market growth.

There are a number of factors bolstering the growth of automotive cylinder head market. The author of the report stated that organic growth of the global automotive vehicle production owing to increasing disposable income and growing urbanization are the major growth drivers of the global automotive cylinder head market. Additionally, increasing demand of complex and lightweight cylinder head to either reduce overall vehicle weight or to enhance engine performance for achieving stringent government regulations, such as CAFÉ Standards, is likely to supplement the growth of automotive cylinder head market over the next five years.

Currently, cast iron dominates the global automotive cylinder head market in terms of materials, however, aluminum is likely to experience the fastest growth over the next five years, driven by advantage of lightweight and ability to develop complex parts. Titanium is very expensive but provides the highest weight reduction as compared to the aluminum and cast iron.

Asia-Pacific is expected to remain the largest cylinder head market during the forecast period. The region is also expected to experience the fastest growth in the next five years. Europe is expected to

The Publisher, a Global Market Intelligence Firm

remain the second largest automotive cylinder head market over the next five years. Recovery of European automotive industry is likely to drive the demand of cylinder head over the next five years. The key automotive cylinder head manufacturers are Nemak, S.A.B. de C.V., Linamar corporation, MAHLE GmbH, KS HUAYU Bearbeitungs GmbH, Cummins Inc., and Toyota Motor Corporation. New product development, Lightweight product and Strategic alliances are the key strategies adopted by the key players to gain competitive edge in the market.

Report Features

This industry research report from Stratview Research provides market intelligence in the most comprehensive manner. The report structure has been kept such that it offers maximum business value. It provides critical insights on the market dynamics and will enable strategic decision making for the existing market players as well as those willing to enter the market. The following are the key features of the research report:

- Market structure: Overview, industry life cycle analysis, supply chain analysis.
- Market environment analysis: Growth drivers and constraints, Porter's five forces analysis, SWOT analysis.
- Market trend and forecast analysis.
- Market segment trend and forecast.
- Competitive landscape and dynamics: Market share, product portfolio, product launches, etc.
- Attractive market segments and associated growth opportunities.
- Emerging trends.
- Strategic growth opportunities for the existing and new players.
- Key success factors.

Stratview Research has a number of high value market reports in the global aerospace & defense industry. Please refer to the following link to browse through our reports:

About Stratview Research

Stratview Research is a global market intelligence firm providing wide range of services including syndicated market reports, custom research and sourcing intelligence across industries such as Advanced Materials, Aerospace & Defense, Automotive & Mass Transportation, Consumer Goods, Construction & Equipment, Electronics and Semiconductors, Energy & Utility, Healthcare & Life Sciences and Oil & Gas.

We have a strong team of industry veterans and analysts having an extensive experience in executing custom research projects for mid-sized to Fortune 500 companies in the areas of Market Assessment, Opportunity Screening, Competitive Intelligence, Due Diligence, Target Screening, Market Entry Strategy and Voice of Customer studies.

Stratview Research is a trusted brand globally, providing high quality research and strategic insights that help companies worldwide in effective decision making.
