

SemaConnect Electric Vehicle (EV) Charging Stations Now Accepting Canadian Currency

Smart EV Charging Stations Receive Over-the-Air Upgrade

WASHINGTON, D.C., UNITED STATES, October 25, 2016 /EINPresswire.com/ -- October 25, 2016: Washington, DC – Electric Vehicle sales now total more than 20,000 in Canada. The increasing number of EVs on the road requires more EV charging stations throughout Canada, including workplace and multifamily locations. [SemaConnect](#) is firmly entrenched in Canada and just pushed an over-the-air software update making it possible for property owners to set prices in Canadian dollars and for drivers to view and pay in Canadian dollars. This new capability will enhance the EV charging experience for all users in Canada.

“SemaConnect’s solution makes it easy for commercial properties throughout North America to provide EV charging services as a new amenity,” said Mark Pastrone, the VP of Business Development at SemaConnect, “driver fees and access policies are set by the property and our technology makes implementation painless. We are very pleased to enhance this capability for the Canadian commercial property market.”

Canadian drivers also benefit since they can use their preferred EV charging programs, like SemaConnect, PlugShare, EVgo or those from leading automakers to access SemaConnect stations. “Canadian drivers love our stations because we work with almost all the major driver programs,” continued Mark Pastrone, “and station owners love our stations because they offer drivers more choice when it comes to charging their vehicles.”

SemaConnect offers the [Series 5 Personal](#) and [Series 6 Commercial/Public](#) Charging Stations for sale in the U.S. and Canada. SemaConnect stations offer smart, networked electric vehicle charging solutions for a range of commercial applications including multifamily, workplace, hospitality, retail and public parking charging services.

About SemaConnect:

SemaConnect is the leading provider of electric vehicle amenities to the North American commercial and residential property markets. A complete EV support partner, SemaConnect delivers a truly modern property experience through innovative, elegantly designed charging stations and a robust and open network. The company has helped maximize property value and appeal through thousands of successful Class A deployments since its founding in 2008 for companies like CBRE, JLL, Hines, Greystar, Cisco Systems, and Standard Parking. SemaConnect remains the preferred charging

Series 5 Personal and Series 6 Commercial Charging Stations

solutions partner to municipal, parking, multifamily, hotel, office and retail customers across the United States and Canada. For more information, visit www.semaconnect.com.
