

# Global Elastomeric Coating Market Outlook 2016: Industry Insights, Demand, Statistics and Application - 2022

*Elastomeric Coating Market by Type (Acrylic, Silicone), Technology (Waterborne, Solvent borne), Application (Wall Coatings), and Region - Forecast to 2022*

PUNE, MAHARASHTRA, INDIA, October 25, 2016 /EINPresswire.com/ -- Market research future published a raw research report on [Global Elastomeric Coating Market](#) that contains the information from 2014 to 2022. Global Elastomeric Coating Market is expected to grow with the CAGR of approximately 15% from 2016 to 2022, and with this it is predictable to cross USD 14 Billion by 2022.

Elastomeric coatings are used to provide tough exterior finish to concrete, metal, and other layers. These coatings are widely applied on wall surfaces and roof tops and other exterior insulation areas in construction. This makes the growth of building and construction as the key driver for this type of coating. The application across the sector has widened for elastomeric coating. These types of

coating materials are preferred over the traditional coating methods due to the flexibility, rigidity and thickness. Acrylic is the largest market by type and is expected to attain a similar share in global Elastomeric Coating market by 2022. Furthermore the growth in automotive sector on a global level has fueled the demand from such coating material which is used extensively in automotive sector.

“

key players in Market report include- BASF SE, Sherwin-Williams Company, The Dow Chemical Company, PPG Industries Inc., The Valspar Corporation, Clariant AG, Jotun A/S, Progressive Painting Inc.”

The Global Elastomeric Coating Market is expected to cross USD 14 Billion at the end of the forecasted period and is expected to grow at CAGR of approximately 15% from 2016 to 2022.

APAC will be the Fastest Growing Market

APAC is expected to dominate the market for global Elastomeric Coating. With the industrialization and increasing population in the region, the demand for high quality coating material for their upcoming construction projects have gone up. The demand is expected to grow in coming years resulting in an expanding share of APAC in global Elastomeric Coating market by 2022. Furthermore the increased foreign investment in the region with fast economic growth will lead to a fast growing market for elastomeric coating.

North America and Europe are the well-established markets for such polymers and the regions are expected to show steady growth in global Elastomeric Coating market by 2022.

Taste the market data and market information presented through more than 85 market data tables and figures spread in 119 numbers of pages of the project report. Avail the in-depth table of content TOC & market synopsis on "[Global Elastomeric Coating Market Research Report - Forecast to 2022](https://www.marketresearchfuture.com/reports/global-elastomeric-coating-market-research-report-forecast-to-2022)"

MRFR recognizes the key players in the Global Packaging Machinery Market as

- BASF SE
- Sherwin-Williams Company
- The Dow Chemical Company
- PPG Industries Inc.
- The Valspar Corporation
- Clariant AG
- Jotun A/S
- Progressive Painting Inc.
- BEHR Process Corporation
- Nippon Paints,
- Rodda Paints
- Dulux Group

This research report has provides the insights, on various levels of analyses such industry analysis, market share analysis leading market players and their profiles. This report also helps in studying the target segments by providing views on emerging & high-growth segments and market conclusion. Together the market data comprise and discuss with the basic assessments on the competitive scenarios & strategies, of the global elastomeric coating market, including the high-growth regions, countries and their political, economic and technological environments. Furthermore the project report also provides the views over the historical market values as well as, pricing and cost analysis of the same.

About Market Research Future:

At [Market Research Future \(MRFR\)](https://www.marketresearchfuture.com), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.

In order to stay updated with technology and work process of the industry, MRFR often plans & conducts meet with the industry experts and industrial visits for its research analyst members.
