

# Simply Supplements release my NutriPack™, personalised nutrition at affordable prices.

*Simply Supplements, one of the UK's leading mail order and online supplements suppliers are continuing to evolve with the introduction of my NutriPack™.*

PETERBOROUGH, PETERBOROUGH, UNITED KINGDOM, October 27, 2016 /EINPresswire.com/ -- Simply Supplements, one of the UK's leading mail order and online vitamins, minerals

and supplements suppliers are continuing to evolve with the introduction of my NutriPack™, a unique and affordable approach to personalised nutrition.

my NutriPack™ offers convenient and personalised nutrition for daily life through one of their three nutritional solutions. Choose to have a free consultation and after answering a few simple questions about current lifestyle and health concerns, the in-house nutrition experts at my NutriPack™ can recommend the best combination of supplements for you. In addition to this, my NutriPack™ also offers two further solutions to meeting your daily nutritional needs – the first company to offer such an extensive selection of options. You can either use the Choose Your Pack option to select one of the my NutriPack™ pre-packed supplement combinations, which have been designed to target single health concerns in isolation, or alternatively take advantage of the Build Your Own option to create a customised pack of supplements, based on your own knowledge of what works best for you.

The team at my NutriPack™ understand that everyone's nutritional needs are different and this is why they offer three solutions to personalised nutrition, delivering high quality products that are manufactured in the UK to GMP standards. Choose their subscription offer and you never have to worry about running out of your favourite supplements again, and on top of this there is a free first month's supply and free delivery for a limited time only.

In addition to offering supplement packs, my NutriPack™ have been working with Paleo expert and author Rebecca Field to provide healthy but delicious recipes to further promote healthy living. They understand that taking supplements is only one factor in living a healthy life, and that people should also be encouraged to enjoy a healthy diet and regular physical activity. This is why they have collaborated with Rebecca to provide each and every customer with easy to cook recipes that are both satisfying and nutritious.

In conclusion, my NutriPack™ offers affordable, high quality supplement packs that have been developed by their in-house nutrition experts. They are the first company to offer three different solutions to meeting your daily nutritional needs, and they understand that nutrition is personal and different to each individual. Supplements should be taken as part of a healthy lifestyle, not a substitute, and together with Rebecca Field of Paleo Diet and Fitness my NutriPack™ aims to help

its customers live a healthy and happy life through a combination of personalised nutrition and a balanced diet.

If you wish to see what my NutriPack™ can offer you, why not head over to their website [www.simplysupplements.net/mynutripack](http://www.simplysupplements.net/mynutripack) and get started on your journey to personalised nutrition.
