

Macrium Software Launch New Central Management Console

Macrium Software have launched their brand new Central Management Console (CMC) for the Reflect backup solutions.

MANCHESTER, UNITED KINGDOM, October 31, 2016 /EINPresswire.com/ -- MANCHESTER/UK – 31 October 2016 –

[Macrium](#) Software, the disk imaging solution specialists, are excited to announce the launch of their all new [CMC](#). The CMC is a comprehensive management framework that can be used to manage backup and recovery activities across a large number of

Macrium Reflect clients. The user-friendly dashboard allows for easy detection and management of PC's and Servers on the local network and the configuration of backup schedules and repositories.

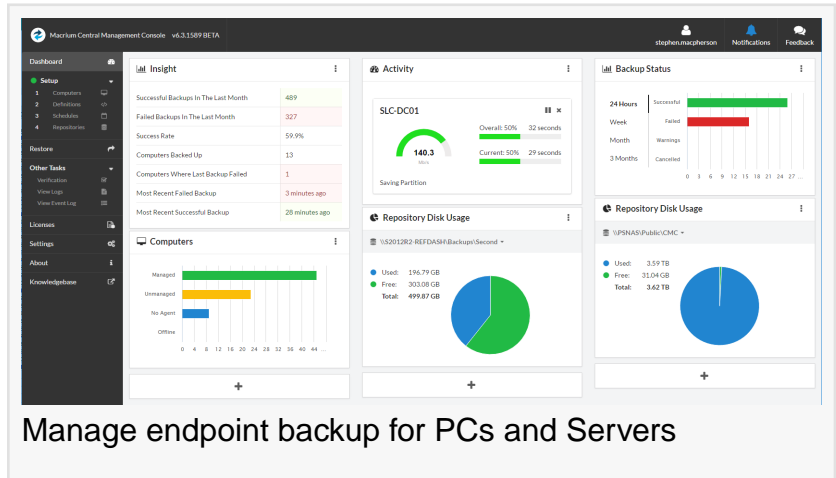

Martin Paul at IT Works (Scotland) Ltd has been trialling this software for several weeks now and sees this new version as a game changer for their clients. "The software allows IT Works to focus more effectively on the administration of client's systems, to manage their data more efficiently, thereby effectively reducing the risk associated with data loss and downtime. This gives peace of mind for the client in knowing that their systems/data is up available to them when they need it most. This also provides us with new commercial opportunity to push out to our client base. The interface is incredibly slick and responsive with support that is second to none".

Stephen Macpherson, Sales Director states, "Our new CMC brings a major addition and enhancement to the Reflect product family. This allows us to take on larger customers and bring greater efficiencies to those already using us. The IT Administrator can now easily manage deployment of agents and monitor the entire backup process".

About us:

Macrium provides a complete disaster recovery solution for home or business which is used worldwide to protect documents, data and operating systems. Using advanced disk imaging technology the entire disk contents are securely saved in an easily recoverable backup file. With over 4 million installs worldwide, Macrium is a trusted and reliable solution for all disk recovery and backup needs. www.macrium.com
