What does it take to succeed? How can I succeed? These are the questions that have been asked over the years. One

method of learning more is to review the Success Manifesto of those who have attained success in their fields.

As we know, a manifesto is a public declaration of intentions, motives or views. In this book, the experts herein share their experiences in their various fields. Like most readers, these authors began their missions at ground zero. As they progressed to success, they harnessed or developed many traits that they share. These traits typically include: a vision or chosen goal, perseverance, a

knowledge of and passion for the subject, a willingness to take calculated risks, a plan, and the courage to take action.

Regardless of the goals the authors have chosen, by using their ideas to mentor you, you can profit from their experiences, both positive and negative - thereby avoiding a loss of time and resources as you move closer to your own goal(s). So, are you ready? If you are, then go into action and start the process.

After such a successful release, Bob Chitrathorn will be recognized by The National Academy of Best-Selling Authors, an organization that honors authors from many of the leading independent best-seller lists.

A portion of the royalties earned from Success Manifesto will be given to Entrepreneur's International Foundation, a not for profit organization dedicated to creating unique launch campaigns to raise money and awareness for charitable causes.

About Bob Chitrathorn:

Suthipong Robert Chitrathorn (Bob for short), came from humble beginnings. Born to parents Puttachart and Sakul Chitrathorn, Bob was raised in a mobile home park in Colton, CA. His parents migrated to Michigan from Bangkok, Thailand in 1974, before settling in Southern California. Over the years, Bob witnessed the different lifestyles that people lived and of the possibilities that lay ahead.

To the Chitrathorns, life in America was a gift and they were proud. They worked hard to put food on the table and to put Bob and his younger sister, Crystal, through school. Bob was frugal as a child and would be happy having bread with nothing but cheese on it, but he was blessed nonetheless. He learned that perspective made all the difference in life.

In his mother's words, "Education is money in the bank." She still teaches nurses to this day, and with Sakul, a factory worker, both sacrificed to make a better life for Bob and Crystal. They paid for both kids to go through private grade school and high school.

Their dedication and sacrifice didn't go to waste. Bob received a scholarship for his first year at La Sierra University, before transferring to Cal State San Bernardino. He received his B.S. in Finance, as well as a B.S. in Real Estate, while minoring in Business Administration. Despite the rigorous course load, Bob graduated magna cum laude and was named part of the Golden Key Honor Society.

In 2004, Bob became a financial advisor, he wanted to help people make good financial decisions. Economics and finance always came easy to Bob. When his professors at CSUSB had to miss class, Bob would be asked to teach his classmates and answer their questions. He was recruited by many different financial firms before settling at the firm he knew was best for him. Here he learned the importance of planning, and would later end up becoming Vice President of Investments and then on to Senior Partner.

With over 12 years of industry experience, Bob has helped hundreds of clients reach their financial goals. Bob recently joined a newly established independent financial firm to help grow a new brand and to help shape the next generation of financial advisors. He holds the Series 6, Series 7, Series 63, Series 65 and life, health and long-term care insurance licenses. Bob has been married to the love of his life, Brittany, for three years. They live in their California home with their rescue dog, Mazy, a pool, putting green, and a Pittsburgh Steelers-themed bar that's perfect for Sunday Night Football.

If you're looking for Bob at 6:30 or 7:00 p.m. on a weeknight, more often than not, he's prepping for a case or still making phone calls to clients. His parents' work habits weren't lost on him, and he's usually the one in the office at the end of the night setting the alarm and turning off the lights.
