

# SymPlay Releases iPad App for Easy ACA-1557 Notification

*Saves Medical Offices Time and Space with Digital Display of Required Non-Discrimination Notices and Taglines*

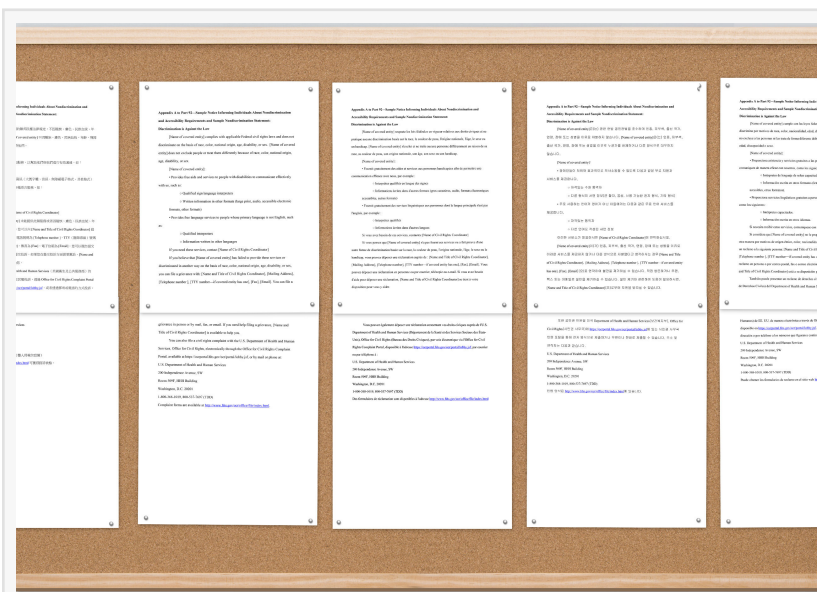

IRVINE, CA, USA, November 2, 2016 /EINPresswire.com/ -- A new iPad application by SymPlay called "ACA-1557 Notices" saves time and office clutter by providing electronic versions of required Non-Discrimination Notices for display in medical offices. The app solves a real problem existing in doctors' offices and clinics: the requirement to display dozens of pages of notices on their walls in the top 15 languages, per the law (Section 1557 of the Affordable Care Act (ACA)).

"Ours is the first and only product that addresses ACA-1557 for medical offices and clinics," states William Fisher, CTO of SymPlay LLC. "Doctors only need to enter their contact information once, and the app automatically displays all of the required notices in 65 different languages...even in Klingon!"

The U.S. Department of Health and Human Services (HHS) Office of Civil Rights (OCR) recently finalized new nondiscrimination rules intended to advance health equity and reduce health care disparities. Under the rule, which implements section 1557 of the Affordable Care Act, individuals are

protected from discrimination in health care on the basis of race, color, national origin, age, disability and sex, including discrimination based on pregnancy, gender identity and sex stereotyping. Covered physicians must comply with by including posting the notices of nondiscrimination and taglines in the top 15 languages spoken by individuals with limited English proficiency.

SymPlay's extremely efficient application is THE solution to satisfying this requirement. "ACA-1557 Notices" offers copies of HHS-provided notices in 65 different languages. Additionally, it effortlessly

fills in the names, phone numbers and other contact details required on each form.

The app is designed to run on any iPad, even older models. It app cycles through every supported language, one at a time, and allows patients to select any specific language from a list and read the notice in that particular language. Both the required full-text notices and short taglines are displayed on the screen in each language. An Android version will be available shortly as well.

ACA-1557 Notices is available for immediate download on the App Store for \$9.99 at:

<https://itunes.apple.com/us/app/aca-1557-notices/id1163658530>.

Site licenses are also available. For additional details, visit <http://www.symplay.com/temp/aca-1557-faq/> or email [aca1557@symplay.com](mailto:aca1557@symplay.com).

Ours is the first and only product that addresses ACA-1557 for medical offices and clinics. Doctors just enter their contact information once, and the app automatically displays all required notices.

*William Fisher, CTO of  
SymPlay LLC*

#### About SymPlay

SymPlay was founded in 2011 by a combination of medical, business and video game professionals eager to develop technological solutions for individuals on the autism spectrum. SymPlay released the game Zody's World: The Clock Catastrophe for iPad and has worked closely with the University of California, Irvine to perform formal clinical studies of the effectiveness of the game with children on the spectrum. Following the success of the first round of studies, the company is now working with post-doctoral researchers at the University to engage in follow-on research. A number of other creative projects are in the developmental phases. The

ACA-1557 app is an outgrowth of the company's efforts to provide valuable services to medical professionals at reasonable cost. For more information, see our Web site at <http://www.symplay.com> and follow us on Twitter at @Symplay
