

Global Plastic Coating Market Expected to Cross USD 8 Billion Mark By 2022

Global Plastic Coating Market Expected to Cross USD 8 Billion Mark By 2022

PUNE, MAHARASHTRA, INDIA, November 3, 2016 /EINPresswire.com/ -- Market Research Future published a raw research report on Global Plastic Coating Market that contains the information from 2014 to 2022. Global Plastic Coating Market is expected to grow with the CAGR of approximately 5% from 2016 to 2022, and with this it is predictable to cross USD 8 Billion by 2022.

Market Synopsis:

Automotive sector plays a key role in the popularity of plastic coating among the suppliers and dealers across the globe. This type of coating has varied application in the automotive sector along with other strategic sectors of aerospace & defense and construction and petrochemicals. With rapid economic development in the emerging nations of APAC, the demand has increased

for automobiles. This change in the trend for the automotive sector has induced the demand for plastic coatings across applications such as seat springs, filter pipes, door handles among many others. The cost efficiency and the properties such as corrosion proof, heat proof, wear proof makes it a preferred coating material over conventional coatings.

Key players in Market are Bayer AG, 3M Company, BASF SE, PPG Industries Inc., Eastman Chemical Company, Akzo Nobel N.V., Wacker Chemie AG, Kansai Paints Co Ltd., Axalta Coating Systems"

We recognize the key players in the Global Packaging Machinery Market as Bayer AG, 3M Company, BASF SE, PPG Industries Inc., Eastman Chemical Company, Akzo Nobel N.V., Wacker Chemie AG, Kansai Paints Co Ltd., Axalta Coating Systems, and Valspar Corporation. This report includes the product portfolios of the same.
Europe will be the Largest Market

Europe is the largest market for plastic coating and is expected to follow the trend by 2022 by leading the market. The region is seen with heavy investments in the research & development in the coating industry with high consumption of the coating material in various industries. North America is valued as a well-established market and is expected to show steady growth in the forecasted period.

APAC is expected to dominate the market with its fastest growing market for plastic coating. With the industrialization and increasing population in the region, there is a high demand for infrastructure and construction. This augments the market for plastic coating with increased government and non-government investments.

This research report has provides the insights, on various levels of analyses such industry analysis, market share analysis leading market players and their profiles. This report also helps in studying the target segments by providing views on emerging & high-growth segments and market conclusion. Together the market data comprise and discuss with the basic assessments on the competitive scenarios & strategies, of the Global Plastic Coating Market, including the high-growth regions, countries and their political, economic and technological environments. Furthermore the project report also provides the views over the historical market values as well as, pricing and cost analysis of the same.

About Market Research Future:

At [Market Research Future \(MRFR\)](#), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.

In order to stay updated with technology and work process of the industry, MRFR often plans & conducts meet with the industry experts and industrial visits for its research analyst members.
