PUNE, INDIA, November 3, 2016 /EINPresswire.com/ -- About [Microphone Market](#)

Global Microphone market accounted for \$1.29 billion in 2015 and is expected to reach \$2.07 billion by 2022 growing at a CAGR of 6.94% from 2015 to 2022. Microphones are widely used in many applications such as telephones, radio and television broadcasting, voice recognition and transmission, speech recognition, noise recognition and reduction, megaphones, and for non-acoustic purposes such as ultrasonic checking. The increasing demand from consumer electronic devices is the major driving factor for market growth. Adoption of microphones in the smart wearable devices and low cost are the favorable factors that will stimulate the market in the coming years. However, high costs of electronic stethoscopes, difficulty in packaging and integration processes are restraining the market growth.
