

Department of Justice (DOJ) is Rotten. The power of the Attorney General, Loretta Lynch, must be neutralized.

Replacing DOJ Head, Loretta Lynch, merely means Obama gets to appoint successor. Donald needs help to drain the swamp.

WASHINGTON DC, DC, U.S.A., October 28, 2016

/EINPresswire.com/ -- Donald Trump naysayers were misguided in assuming that he planned to wait to drain the [swamp](#) until he became President.

Author of the new book, "Drain the Swamp," Dr Chris [Tingle](#) claims that Trump has already started cleaning out corruption by stampeding the DOJ, the compromised media, and the wealthy 1% - into exposing their corrupt practices.

Dr Tingle is particularly concerned at the impact Wall Street has had on this election cycle. In what she calls "the unholy triangle" she suggests that the support from Wall Street and the media for [Clinton](#)'s campaign is "payback" for the massive taxpayer bailouts following the global financial crisis of 2008. In essence she claims the American public have unwittingly funded the takeover of American democracy to the tune of billions of taxpayer bailout dollars while the DOJ looks the other way.

"DOJ, Wall Street and the Democratic Party form an unholy alliance" she claims in an explosive new book, "Drain the Swamp."

“

The Non Generation Movement has filed a complaint against the corrupt Department of Justice (DOJ) in relation to Clinton Foundation, addressed to the United Nations Commission of Human Rights.”

Dr. Chris Tingle

Tingle says, "Everything is fucked up, the Department of Justice is corrupt, and nobody goes to jail, that's the whole story right there. Hell, you don't even have to write the rest of it. Just write that."

She continues "Soon we will discover DOJ head, Loretta Lynch, pressures James Comey to keep voters in the dark about FBI's Hillary investigation regarding Clinton Foundation, illegal email servers and exposing classified documents. The DOJ is like an octopus with tentacles reaching out to control every Federal law enforcement agency and sabotage the calling of a Grand Jury."

She continues, "Federal Election Committee data records donations from federal government employees to presidential

candidates. Employees of the Department of Justice, which investigated Clinton's use of a private email server while she was secretary of State, gave Clinton 97% of their donations. Trump received \$8,756 from DOJ employees compared with \$286,797 for Clinton."

"In other words, almost every employee who donated politically at the DOJ wanted to see Clinton as president of the United States."

"It does not require a strong imagination to suggest there may be a problem in the swamp of

American politics”

J. Christian Adams, who used to work in the DOJ claimed on the Mark Levin Show that in FBI investigations there is a "give-and-take" between the FBI and DOJ, where "the FBI agents realize how high the hurdle is for them to make a case," Dr Tingle claims this may have been an insurmountably high hurdle given the DOJ's bias in favour of Clinton.

"Those guys in the DOJ could be rolling their eyes, they could be pushing back, saying, Well that's not good enough evidence," Adams said to radio host Mark Levin. "There is a constant give-and-take." James Comey said he's spoken to Attorney General Loretta Lynch about the conflicts. Those are the moments when the antagonism manifests, when the DOJ shows that they don't like the case. And when he says in the hearing that they had "grave concerns." That tells me that DOJ had over-ruled the due process of the law.

Dr Tingle continues, "And now we have Comey writing Congress in a desperate effort to bypass the DOJ. It is past time for Clinton, Wall Street and the DOJ to be investigated. Trump may well be our last hope."
