

Energy Harvesting Devices Market Expected to grow at a CAGR of 22.0% According Forecast Period 2015 to 2022

Energy harvesting devices utilize natural resources such as wind, water, air and sun to generate electrical energy

PUNE, INDIA, November 4, 2016 /EINPresswire.com/ -- About [Energy Harvesting Devices Market](#)

Global Energy Harvesting Devices market is expected to grow at a CAGR of 22.0% in terms of revenue over the forecast period 2015 to 2022. Energy harvesting devices utilize natural resources such as wind, water, air and sun to generate electrical energy, which reduces the emission of greenhouse gases. The amount of energy generated by the devices is small, but it can be used for applications with low power consumption. The increasing demand for energy, rapidly growing consumer electronics market, government support and technological development are the key driving factors for the market growth. Limited number of applications is the critical challenge for this market.
