Description

Wiseguyreports.Com Adds "Telecom Operations Management -Market Demand, Growth, Opportunities and analysis of Top Key Player Forecast to 2021" To Its Research Database

According to Statistics MRC, the Global Telecom Operations Management Market is valued at \$49.4 billion in 2015 and is expected to grow at a CAGR of 7.9% to reach \$83.9 billion by 2022. Rising operational costs, increasing adoption of next-generation telecom technologies, high operational difficulty, and huge investments in OSS architecture are the major factors contributing to the market growth. Lack of proficient system integrators is expected to hinder the market growth during the forecast period. Increasing need for end-to-end operations management is poised to bring in innovative avenues for market growth. North America is anticipated to be the largest market for Telecom Operations Management, whereas Asia Pacific and MEA are projected to grow at a faster pace.
