Biopreservation Market is accounted for \$2.17 billion in 2015 and is expected to reach \$4.75 billion by 2022 growing at a CAGR of 11.84%

PUNE, INDIA, November 8, 2016 /EINPresswire.com/ -- [Global Biopreservation Industry](#)

Global Biopreservation Market is accounted for \$2.17 billion in 2015 and is expected to reach \$4.75 billion by 2022 growing at a CAGR of 11.84% during the forecast period. Rising healthcare costs, improved research and development in the field and rising usage of regenerative medicine are some of the factors boosting the market growth. However, huge cost of advanced techniques is one of the key factors hampering the market.

By cell provider's volume, Tumor cells segment dominated the global market with largest share in 2014 due to several applications in research & development. By geography, North America dominated the global market with more than 40% of the share in 2014 owing to therapies in biomedical research and rise in the population requiring diagnosis in this region. However, the Asia-Pacific market is anticipated to grow at the fastest CAGR during the forecast period.
