

CompetitorMetrics publishes Top 100 Construction Engineering Contractors Benchmarking Research

MILTON KEYNES, UNITED KINGDOM, November 9, 2016 /EINPresswire.com/ -- [Construction Engineering Companies – Competitor Metrics Benchmarking 2016](#) provides an in-depth competitor analysis of 100 of the world's largest engineering construction companies. We have painstakingly collected historical financial and operational data from the largest construction engineering companies and crunched the numbers. We have sliced and diced the data to provide a complete analysis set.

- The largest profit margin was posted by OHL, at 22.1%
- The largest profit was posted by China State Construction Engineering Corp., at US\$7,063m.
- The company with the largest number of employees is China Railway Group Ltd, with 291,149.
- The largest revenue per employee is by Penta-Ocean Construction Co. Ltd, at revenue of US\$1,560,000 per employee.
- The largest profit per employee is by Larsen & Toubro, at US\$147,184.
- China State Construction Engineering Corp. is the largest construction engineering company by revenue
- Combined revenues of all companies in the research is over US\$1.2 trillion
- Average revenue stood at US\$12.3bn across 100 companies

The research data is provided in a large Excel spreadsheet so customers can pull out data, run their own analyses or select data to put into Powerpoint presentations. Some 100 of the largest construction engineering companies are analysed from around the world. Each company is presented on a separate worksheet, with a summary sheet comparing data from each company.

The large dataset provides financial performance of individual companies (where reported), including group financials, operating profit, operating margin, segment revenues, segment profitability, geographic revenues, geographic reporting and other data where available. View specific competitors, understand their operations and how they have performed over time.

Furthermore, the data is standardised to US\$ (US dollar) and companies are further ranked on revenues, CAGR growth, profit, margin, employees, revenue per employee and profit per employee and operating margin. The data is available and open for customers to run their own analyses and comparisons.

The full list of 100 companies covered:
