

inWhatLanguage ranks 13th in Utah's 100 fastest growing companies

CEO, Cody Broderick, accepted the award for ranking 13th in the Utah 100 in behalf of inWhatLanguage, a language technology and translation company.

SALT LAKE CITY, UTAH, UNITED STATES, November 10, 2016 /EINPresswire.com/ -- [inWhatLanguage](#), an innovative language technology company, was ranked the 13th fastest growing company in Utah for 2016 by [MountainWest Capital Network \(MWCN\)](#) at the annual Utah 100 Awards Program. The event took place on October 18th in the beautiful Grand America Hotel in downtown Salt Lake City.

inWhatLanguage's CEO, Cody Broderick, said, "When I first started

inWhatLanguage, I always dreamed of making the list of Utah's fastest growing companies. This year that dream became a reality and being recognized and awarded as #13 of the 100 fastest growing companies is a big milestone for us. I am grateful when I think about the amazing group of people that have made this possible and who continue to work so hard each day toward our long-term vision. I'm excited for what's to come. What a beautiful journey. What a great team win!"

The Utah 100 Awards Program recognizes the top 100 fastest growing companies across the state of Utah from thousands of candidates in all industries. MWCN also honored the 15 Top Revenue Growth and the Emerging Elite companies in Utah. "Utah is a leading state both in the number of startups and the number of companies that survive their first five years," Gov. Gary Herbert said. "This annual event is a great opportunity to celebrate those innovators, business owners, and entrepreneurs who keep our communities vibrant and strong".

About inWhatLanguage:

inWhatLanguage is a full service translation agency, offering translation services in 180+ languages. Through [UNIFY](#), a completely cloud-based management system, inWhatLanguage streamlines the translation process resulting in substantial cost and time savings, higher quality translations, and much faster time to market for business enterprises. UNIFY supports 50+ file types, has built-in integrations and APIs, making it easy to connect, translate, and localize all business content in one centralized location.
