

Distributed Energy Generation 2016 Global Market Expected to Grow at CAGR 11.4% and Forecast to 2020

PUNE, INDIA, November 14, 2016
/EINPresswire.com/ --

WiseGuyReports.Com Publish a New Market Research Report On –“Distributed Energy Generation 2016 Global Market Expected to Grow at CAGR 11.4% and Forecast to 2020”.

The analysts forecast the [global distributed energy generation market](#) to grow at a CAGR of 11.4% during the period 2016-2020.

Distributed energy generation refers to small-scale production of electricity ranging from a few kW to tens of MWs. In distributed energy generation, power is typically generated using renewable resources and using generators at the point of consumption. Distributed energy generation systems are usually connected at the distribution or substation levels and can function as stand-alone power sources.

Covered in this report

The report covers the present scenario and the growth prospects of the global distributed energy generation market for 2016-2020. To calculate the market size, the report enlists certain key estimates that we have considered for arriving at the market trends and certain exclusions that helped us to demarcate the market contours.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

The report, Global Distributed Energy Generation Market 2016-2020, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- Ansaldo Energia
- Ballard Power Systems
- Bloom Energy
- Capstone Turbine
- First Solar

Complete Report Details @ <https://www.wiseguyreports.com/reports/742753-global-distributed-energy-generation-market-2016-2020>

Other prominent vendors

- Acal
- Acumentrics
- Aisin Seiki
- Alteryx
- Ceramic Fuel Cells
- Ceres Power
- Delphi Automotive
- DMFCC (Subsidiary of VIASPACE)
- Doosan Fuel Cell
- Electrochem
- EnergyOR Technologies
- Enocell
- FuelCell Energy
- FUELCELLSETC
- GE
- H2 Logic
- Horizon Fuel Cell Technologies
- Hydrogenics
- Intelligent Energy
- Johnson Matthey Fuel Cells
- Kingspan Environmental
- Kyocera
- LG Fuel Cell Systems
- Micro Turbine Tech BV (MTT)
- Mitsubishi Heavy Industries
- Neah Power Systems
- Oorja Protonics
- Panasonic
- Plug Power
- Redox Power Systems
- Shanghai EverPower Technologies
- Siemens
- Symbio FCell
- Toshiba
- Ultra Electronics
- Wilson Solarpower

- Wuxi Suntech Power
- Yingli Solar

Market driver

- Changes in grid structure allow decentralization of power generation.
- For a full, detailed list, view our report

Market challenge

- Growth of distributed energy generation impacts grid operation.
- For a full, detailed list, view our report

Market trend

- Increase in hybrid power systems and microgrid deployments.
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2020 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

Table Of Contents – Major Key Points

PART 01: Executive summary

- Highlights

PART 02: Scope of the report

- Market overview
- Top-vendor offerings

PART 03: Market research methodology

- Research methodology
- Economic indicators

PART 04: Introduction

- Key market highlights
- Technology overview

PART 05: Market landscape

- Market overview
- Market size and forecast
- Five forces analysis

PART 06: Market segmentation by technology

- Global distributed energy generation market by technology 2015-2020
- Global distributed energy generation market by solar PV technology
- Global distributed energy generation market by CHP technology
- Global distributed energy generation market by fuel cell technology
- Global distributed energy generation market by microturbine technology

- Global distributed energy generation market by wind turbine technology

PART 07: Geographical segmentation

- Global distributed energy generation market by geography
- Distribution energy generation market in APAC
- Distribution energy generation market in EMEA
- Distribution energy generation market in the Americas

PART 08: Market drivers

- Rise in electrification through hybrid decentralized power systems
- Changes in grid structure allow decentralization of power generation
- Need for resilient grids

PART 09: Impact of drivers

PART 10: Market challenges

- High exit and standby costs
- Growth of distributed energy generation impacts grid operation
- Lack of industry standards

PART 11: Impact of drivers and challenges

PART 12: Market trends

- Rapid advances in technology and reduction in technology costs
- Growing demand from telecom sector
- Increase in hybrid power systems and microgrid deployments

ABOUT US:

Wise Guy Reports is part of the Wise Guy Consultants Pvt. Ltd. and offers premium progressive statistical surveying, market research reports, analysis & forecast data for industries and governments around the globe. Wise Guy Reports features an exhaustive list of market research reports from hundreds of publishers worldwide. We boast a database spanning virtually every market category and an even more comprehensive collection of market research reports under these categories and sub-categories.
