

# Codiant Emerged As One of the Key Note Technology Leaders in Web Summit 2016

*Codiant stand as the Technology Leader in empowering the foothold of startups by touting its key services “Mobile App & Web Development” in the Web Summit 2016.*

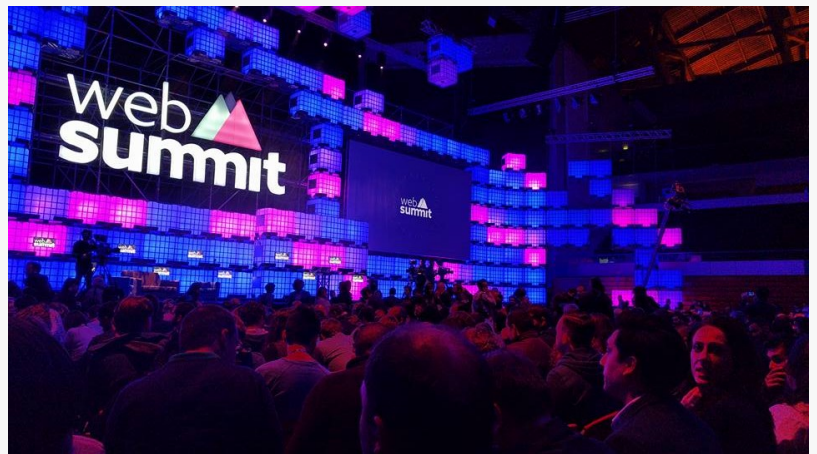

MOLINE, IL, USA, November 15, 2016

/EINPresswire.com/ -- Earlier this week, “the Europe’s largest technology marketplace- Web Summit 2016

“witnessed huge participants from all over the world to exhibit their core technology services and products.

Amongst the increasingly promising presence of CEOs, founders, startups,

investors and political leaders, Codiant software technologies confirmed to bag its special recognition in the race of exhibiting world-class Mobile app development, web development, and Custom Solutions.

Codiant software technologies which during the event was poised of its motive to manifest the world's leading and cutting-edge technology products and solutions in a gust to provide a robust base to startups and other budding SME's who are either looking to transform their business ideas into successful venture or eyeing for product improvising solutions, emerged out as a perfect conduit to the nascent stage of startups.

After receiving encouraging response in the exhibition, the company shared their valued expertise and wisdom in the arrays of solutions, few amongst them being Big Data Analytics, [Internet of Things \(IoT\)](#), [Wearable Devices App Development](#), Startups and Enterprise solutions and more with the businesses around and enriched them with interesting facts and figures to help growth further in the industry. Following this, the company got an opportunity to broaden their network with others in the business and pack some interesting deals with great product ideas.

Codiant software technologies founder and CEO Vikrant Jain, explaining his corporate involvement and significant demand in the summit, said, as one of the pioneering [mobile app and web development](#) companies in the IL, USA tasked to strengthen and uphold the interests and ideas of emerging startups, we ensure to deliver our ahead-of-the-curve solutions and services to companies that could help strengthen their expansion in the market presence and for that to turn inevitable, we are scaling up our operations and planning to double our headcount over the next six months.”

Codiant software technologies has added to its credit a remarkable visit to the Web Summit 2016 and is highly thrilled for its participation in the next upcoming event Cebit in Australia, May 5-7, 2017.
