

Cosmetic Serum Market - Opportunities and Forecast 2016 - 2020

PUNE, INDIA, November 16, 2016 /EINPresswire.com/ -- [Cosmetic Serum Market](#)

A cosmetic serum is a product applied externally for a desired cosmetic effect. It is usually a water-based non-greasy and intensive formula that contains a high concentration of active substances. Serums can also be oil and water based but have an oil-free texture (owing to choice and less concentration of oil used in formulation), which helps serums to penetrate deeper.

Serums contain high concentrations of active ingredients, so are usually made to contain just a few active ingredients. Serums can be used at any age for delivering the desired action of antioxidants, moisturizing, nourishing, and energizing.

Research analysts forecast the global cosmetic serum market to grow at a CAGR of 3.30% by revenue during the period 2016-2020.
