-- [IvyCamp](#) is a Unified innovation and Entrepreneurship Platform that leverages

the Global Alumni Networks to help entrepreneurs become successful.

IvyCamp, not only supports Entrepreneurs, but helps to build new entrepreneurs, by connecting them with mentors, investors, incubation centre's, corporates, and other resources - all through Alumni networks. We partner with our educational institutions (IITs, IIMs, ISB, BITS and many others) to connect, support and help grow their entrepreneurial ecosystems.

We work with early stage startups from across all the institutions to connect them to the resources they need at the time. One such resource is services that startups need to support and grow their business.

We have just introduced registration and regulatory services for startups through an IvyCamp partner service provider.

To seek funding, or to operate your business, it is important to register your startup either as Private Limited Company/Limited Liability Partnership/Sole Proprietorship. We are also including a "Startup India" package that will help startups that are eligible for the Startup India Recognition under the Startup India Standup India plan, to obtain the certification by DIPP as a recognized startup and issuance of Startup Certificate.

To know more about this service visit [www.ivycamp.in/resources](http://www.ivycamp.in/resources). To avail this service, you should be [registered](#) on the IvyCamp Platform.

First 5 startups to use the service receive a 10% discount on any package selected !!!
