WiseGuyReports.Com Publish a New Market Research Report On – “Renewable Energy Investment 2016 Global Market Expected to Grow at CAGR 5.85% and Forecast to 2020”.

The analysts forecast the global renewable energy investment market to grow at a CAGR of 5.85% during the period 2016-2020.

[Renewable energy is generated from natural](#)

resources that include wave, wind, biomass, solar, hydro, geothermal, and tidal power.

National governments and corporate enterprises are making heavy investments to develop and enhance clean renewable energy sources. These resources produce large quantities of energy and avoid greenhouse gases that contribute to the climate change. In,

Scotland, a total of 60 GW of renewable energy resources is considered to be equivalent to three quarters of the total energy that can be generated by existing power stations in the UK. The innovators and the government in the region are trying to build the largest offshore windfarm in the coast of Scotland. If the Argyll Array is commissioned, it will be located close to the Island of Tiree, which is likely to produce enough energy to power up to one million homes.
