PUNE, MAHARASHTRA, INDIA, November 17, 2016 /EINPresswire.com/ -- [Cloud IAM \(Identity and Access Management\)](#) Industry

Description

According to Statistics MRC, the Global Cloud IAM (Identity and Access Management) Market is poised to reach \$5.32 billion by 2022 growing at a CAGR of 25.48% during the forecast period. Some of the major factors driving the cloud IAM market are rising rates owing to cyber-crime detection and recuperating from consequent losses. The boost in the number of small and medium scale businesses in countries such as the China, South Korea, Japan, U.K., and India are other factors contributing to the growth of the cloud IAM market. Some of the major factors hampering the market are absence of trust and inefficiency in assurance of identity for cloud services and applications. Additionally, the growing adoption of solutions among enterprises and the budding IoT trends are poised to offer new opportunities to the market in the coming years.

Industries such as healthcare, BFSI, energy and oil & gas, telecom & IT are anticipated to witness a considerable growth for cloud IAM during the forecast period. North America is poised to hold the biggest market share, whereas Asia Pacific is expected to grow at the highest CAGR during the forecast period.
