

Airport Baggage Handling Systems Market Size, Competitor Analysis, Regional Growth Explore the Business Potential

Market Research Future Published a Cooked Research Report on The Airport Baggage Handling Systems is expected to grow at a CAGR of around 7.56% during 2016-2021

PUNE, MAHARASHTRA, INDIA, November 18, 2016 /EINPresswire.com/ -- Market Synopsis

The global Airport Baggage Handling Systems is expected to grow at a CAGR of around 7.56% during 2016-2021. This growth is driven due to increasing air traffic, up gradation and modernization of airports. As per the MRFR analysis, increasing focus on airport efficiency and focus on customer satisfaction are some of the other factors that are significantly contributing to the growth of the market.

Market Segmentation

By Airport Class

- A
- B
- C

By Technology

- Barcode
- RFID

By Service

- Self-Service
- Assisted-Service

By Type

- Conveyors
- Destination-Coded
- Vehicles

By Geography

- Americas (North & Latin)

- o Europe
- o Asia – Pacific
- o Middle East & Africa

Key Findings

- Airport construction and terminal expansion projects are the key factors driving the market
- Utilization of technology (such as RFID) for airport baggage handling processes has been growing
- In 2014, 24.1 million airport passenger bag was mishandled, which cost the industry \$2.4 billion
- APAC will grow at a CAGR of around 10% in the forecast period, followed by Americas and EMEA with XX% and XX%, respectively

Taste the market data and market information presented through more than 70 market data tables and figures spread in 120 numbers of pages of the project report. Avail the in-depth table of content TOC & market synopsis on “[Global Commercial Airport Baggage Handling Systems Market to 2021](#)”

Key Player

- Vanderlande Industries
- Daifuku Company Ltd
- Siemens AG
- Pteris Global Limited
- Beumer Group
- Grenzebach Maschinenbau GMBH
- Fives Group
- BCS Group
- G&S Airport Conveyor
- Logplan LLC

Regional Analysis

Asia Pacific is leading the global market with around 40% market share and will remain the dominant player during forecast period. As per the estimates, the region would have an annual average growth of 6.3% in passenger traffic for the next 20 years. It is estimated that almost 50% of global air passenger's traffic over the next 20 years will originate from APAC. These factors will boost the demand for [airport baggage handling systems market](#).

This research report provides detailed insights, into various levels of analyses such industry analysis, market share analysis leading market players and their profiles. This report also helps in studying the target segments by providing views on emerging & high-growth segments and market conclusion. Together the market data comprise and discuss with the basic assessments on the competitive scenarios & strategies, of the Global Airport Baggage Handling Systems Market, including the high-growth regions, countries and their political, economic and technological environments. Furthermore the project report also provides views over the historic market values as well as, pricing and cost analysis of the same.
