

# 9 Key International Programmes Highlighted at Network Enabled Capability Technology 2017

*Italy, Ireland, Canada, UK, US EUCOM, Netherlands, Norway, Sweden and NATO to present NEC programmes in Rome*

LONDON, ENGLAND, UNITED KINGDOM, November 18, 2016 /EINPresswire.com/ -- Launching in Rome on the 1st and 2nd of February 2017, SMI's [Network Enabled Capability Technology](#) conference will showcase nine key international programmes at the forefront of advancing capability in this essential area of defence.

As nations continue to improve and implement netcentric capabilities across their armed forces, the conference will address issues surrounding the demand of modernisation and digitisation of information, the growing need for networking unmanned platforms and procurement for technological advancements of defence operations.

[Led by high-level military leaders and technical experts](#), the two-day event will feature the following presentations:

- How Forza NEC Will Impact the Future of Operational Effectiveness of Italian Armed Forces  
General (Ret'd) Vincenzo Camporini, VP Istituto Affari Internazionali, Former Chief of Defence General Staff, Italian Army

- Developing Future Capabilities of the Army Through Implementation of NEC Technology

Brigadier General Peter O'Halloran, Assistant Chief of Staff, Irish Defence Forces

- Incorporating Cyber into the NATO Military Structure

Brigadier General Christos Anthanasiadis, Assistant Chief of Staff for the JCyber Division, SHAPE,

Network Enabled Capability Technology 2017
