

Geotechnical experts to speak on the solutions to Egypt's challenging soil conditions

Egypt's rapid pace of construction and megaprojects have led the country to build in areas affected by a new set of challenges.

CAIRO, EGYPT, November 20, 2016 /EINPresswire.com/ -- Egypt's rapid pace of construction and megaprojects have led the country to build in areas affected by a new set of challenges. In particular, areas with collapsing or soft, silt-laden soils have posed particular challenges for engineers in the region, requiring innovation and new solutions.

In light to this, IQPC Middle East will be hosting the Underground Infrastructure and Deep Foundations Egypt conference, taking place from 17 - 18 January 2017 in Cairo, Egypt where some of the geotechnical experts from Dar Al Handasah, PGESCO, Nile Engineering Consulting Bureau and Ministry of Housing Egypt will be attending to discuss solutions to Egypt's challenging soil conditions.

Some of the experts to speak at the event include:

- Ashraf Khalifa, Head of Structural Sector, Ministry of Housing
- Remon Isaac, Senior Geotechnical Engineer, Dar Al Handasah
- Ashraf El Far, Geotechnical Team Leader, PGESCO
- Prof. Dr. Mohamed Al-Gharieb Sakr, Director of Geotechnical Engineering Research Laboratory, Tanta University
- Prof. Dr. Ing. Anwar Farouk El Kadi, Vice President and Managing Director, Nile Engineering Consulting Bureau
- Eng. Fathy Kamal, Geotechnical Works Expert, Geotechnical Department, Archirodon Construction
- Ahmed Elwakeel, Senior Geotechnical Engineer, A&A Consultants

Action International, Keller and Menard Vibro will be participating as sponsors at the event. Find the full programme, speaker list and registration form at www.undergroundfoundationegypt.com/news call +971 4 364 2975 or email enquiry@iqpc.ae.
