

Teldat Routers at European Utility Week 2016 (Barcelona, Spain)

The European Utility Week 2016 event is being attended by 12.000 international visitors, 450 speakers and 600 exhibitors.

MADRID, MADRID, SPAIN, November 21, 2016 /EINPresswire.com/ -- - Teldat was at the European Utility Week 2016 last week (16-18 November), in Barcelona.

Francisco Guerrero, Product Manager – Business Line Manager at Teldat, and Andrés Monterrubio, Utility Project Manager at Teldat, attended this fair, focused on the utilities market, including [Smart Grid](#), with its partner PRIME alliance.

PRIME alliance is a mature, consolidated and worldwide PLC standard for Advanced Metering, Grid Control and Asset Monitoring applications and the objective to establish a set of open international PLC standards has been met.

On the Prime Alliance stand the [Teldat Regesta Compact PLC-3G router](#) was on show. A PLC gateway for efficient, cost-effective telemetry deployments that brings the most advanced IP network protocols to the world of Smart Grids and telemetry. It's an ideal device for the deployment of intelligent centralized telemetry solutions that require reliable communications with up to a large quantity of PLC smart meters. The Regesta Compact PLC-3G takes full advantage of Teldat's advanced internetworking software (CIT) to provide state-of-the-art communications security.

The European Utility Week 2016 event serves as an annual meeting point for the community and will be attended by 12.000 international visitors, 450 speakers and 600 exhibitors.

Thank you to all who accompanied Teldat at the European Utility Week 2016.

Teldat also works with communication platforms in other vertical markets such as automobile. [Click](#)
