“Chlamydia trachomatis infection primarily resides in the human urogenital tract. Under normal circumstances, mycoplasma, UU in the vaginal flora does not cause disease. Only when immunity is impaired or the vaginal mucosa is damaged, do those STDs become pathogenic,” Dr. Lee Xiaoping introduced. As the leading doctor in Wuhan Dr. Lee TCM Clinic, Dr. Lee specializes in reproductive health for more than 30 years.

With more and more patients complaining their disturbing experiences of taking antibiotics, the side effects of antibiotics arouse big threats for people all over the world. Growing antibiotic resistance has reduced treatment options of STDs. Doctors in Wuhan Dr. Lee TCM Clinic make great efforts to work out a new approach: herbal medicine Fuyan Pill, to treat STDs with no side effects. As a competitive herbal medicine with great prestige in China, Fuyan Pill was authorized by the State Intellectual Property Office with a SIPO number of CN 101574459 A. You could see here: <https://www.google.com/patents/CN101574459A?cl=en&hl=zh-CN>

Many women with STDs including chlamydia, mycoplasma, UU suffer from the symptoms of abnormal vaginal discharge, itching or burning in or around the vagina, abdominal pain, or pain during sex or urination. Herbal medicine Fuyan Pill exerts its function of heat-clearing and detoxifying, blood-activating and stasis-dissolving, spleen-invigorating and dampness-eliminating. As the alternative [medicine for chlamydia](#), mycoplasma, ureaplasma urealyticum, Fuyan Pill can treat infections radically, not only for symptoms, but also their root cause.

Some studies suggested that STDs may exert potential adverse effects on fertility in women, because some patients infected with STDs will develop salpingitis, endometritis, pelvic inflammatory disease, ectopic pregnancy and tubal factor-related infertility. However, herbal medicine Fuyan Pill also produces positive effects on treating those female reproductive diseases.

Inflammation extensive exists in female reproductive diseases, such as the bacterial, fungous, trichomonad, which are found in leucorrhea, and cervix mucous edema, hydrops in fallopian tubes,

endometritis all indicate the inflammation inside the body. Since many female reproductive diseases need Fuyan Pill to eliminate inflammation and clear away heat and toxic material.

“Fuyan Pill works as the antidote, its herbal formula has added bupleurum, licorice root, astragalus, jasmine, which works well to clear heat and expel damp, anti-inflammatory analgesic, effectively kill pathogens like chlamydia, mycoplasma or [ureaplasma urealytium](#) and other female reproductive diseases,” Dr. Lee says.

Mrs. Lakshmi is from India. She had repeated chlamydia for 4 years, after taking herbal medicine Fuyan Pill for 4 months, she got a complete cure.

“I was suffering from terrible chlamydia infection until I read about Fuyan Pill on Google, which interested me. I emailed Lee for some consulting and finally made up my mind to ordered one month supply. I did keep a required as Lee told which was not easy for me at the beginning; luckily I later cut out curry finally. Lee has always been telling me to keep on the diet, and always be helpful on my questions. I had been worrying that the break during menses would affect the treatment but Lee told me that wouldn't, so I did.”

“Dramatically, the infection which had bothered me for over 4 years was eliminated after three courses with Fuyan Pill. It has been 4 months after that and no recurrence occurs. I'm so happy and now I'm pregnant. With my healthy baby in my body, I really appreciate Lee's help.”

In the past, antibiotics are commonly-used in the STDs treatment, because of its strong sterilization. However, due to a growing drug resistance and tolerance caused by antibiotics, many strains of pathogens including chlamydia, mycoplasma and ureaplasma show no response to antibiotic therapy. In this way, herbal medicine, Fuyan Pill, with more strong broad-spectrum antibacterial properties and no side effects, produces a new approach to cure STDs including chlamydia, mycoplasma, and ureaplasma urealytium naturally, safely, and effectively.
