Committee will make a recommendation to the conference Editor regarding suitability of the paper to be published. Papers will be assessed against the appropriate technical and editorial criteria for practice and scientific contributions. The Editor will advise you whether your paper has been accepted, rejected or requires revision. Review feedback will be provided to help guide any revisions required. The submission of the papers and registration to the conference is possible online via the online submission and registration platforms on the conference website (epm.ut.ac.ir). The details about submitting a paper to this conference is at <https://epm.ut.ac.ir/cnf/authors.note>. The deadline for submission of final papers and extended abstracts (i.e. post review and after revision to address review feedback) is 21 April 2017. If you need any further assistance or have queries regarding this event, please do not hesitate to contact us.

Kind regards,

Conference goals:

- Increasing public awareness in the realms of environment and natural resources
- Promoting the development and cultivation of environmental sciences and natural resources
- Hothing a suitable platform for seminar and exchanging of information among students, professors and industrialists of the country
- Promoting scientific thinkers, researchers and students through an exchange of views

- Achieving macroeconomic policies and strategies for protecting the environment and natural resources
- Contributing to localization of international environmental discourse based on cultural, political and social state of the country, as well as paving the way for the formation of a new discourse on national and local levels to consider the Environment from a social and cultural perspective
- Promoting the Islamic Republic of Iran in a series of efforts in progress by the scientific community to achieve success in the realization of environmentally friendly strategies and reduce the harmful consequences to the Environment
- Adoption of a proactive environment diplomacy in the area of plans and long-term measures based on participatory principles in national, regional and international scales which proceed environmental constructive actions for the economy and green industry by the relevant organs...
