Online Marketplace Puts Web Professionals in Touch with Growing Global Market

Find Web Pros adds features to quickly match web professionals with clients by services, awards, location or budget; simplified submission process

BUCHANAN, MICHIGAN, UNITED STATES, November 22, 2016 /EINPresswire.com/ -- Buchanan, MI – Principals of Find Web Professionals have announced a series of upgrades to their online marketplace to significantly improve the process of matching qualified web design, development and marketing professionals with the expanding global marketplace of businesses in search of these web centric services and many others.

Jeffrey Antisdel, the company's president said, "This latest round of upgrades is designed to simplify the process of submitting a project for quote by means of a formatting tool that walks the user through the process, one step at a time." The new features can be reviewed at www.FindWebPros.com.

Companies seeking web services can submit a Request for Proposal online and include the desired expertise, time requirements, and a proposed budget. Additionally, web professionals can be searched and sorted by multiple variables including expertise, location, and budgetary requirments.

Areas of expertise covered by FindWebPros include web analytics and strategy, animation, applications, consulting, research, content management, customer service, data systems, website development, as well as e-commerce, fulfillment, mobile commerce, payment systems, supply chain, web performance, website usability and many others.

FindWebPros hosts a global Community where web professionals post a description of their services along with prices, and "tags" for easy review and comparison of the services they provide.
