WiseGuyReports.Com Publish a New Market Research Report On – “3D Animation Software 2016 Global Market Expected to Grow at CAGR 12.45% and Forecast to 2020”.

PUNE, INDIA, November 24, 2016
/EINPresswire.com/ --

The analysts forecast the [global 3D animation software market](#) to grow at a CAGR of 12.45% during the period 2016-2020.

The main use of an animation software is to generate animated images, which gives the illusion of movement when the images are shown as a sequence. There are numerous tools available to the end users to create a realistic virtual image according to their requirements. Apart from creating animated movies like Frozen and Shrek, 3D animation is also used in films to improve the visual effects, and also in AEC and automotive projects. The rapid advancement in technologies and use of animation software in the media and entertainment and other industries has made 3D animation popular among the general masses.
