

# Solar Powered Water Solutions for Uganda

*Together we can help build a sustainable solar-powered water system on a farm in northern Uganda.*

CHICAGO, ILLINOIS, UNITED STATES, November 30, 2016 /EINPresswire.com/ -- Freedom in Creation, a charity focused on clean [water](#) solutions, is working to build a sustainable solar-powered water system on a farm in northern [Uganda](#). This will radically increase the water and food output and educational reach for the children in the Gulu community. In addition to leveraging solar power to pump potable water to an elevated tank, the system will supply a 250 fish [aquaponics](#) tank enabling us to grow Nile tilapia and use their waste to enrich our plant nursery and gardens.

## Problem

Lack of consistent water supply for rural farm based education center and community

## Solution

Solar Powered well pump to ensure water security (solar powered pump feed to an elevated tank 20ft stand)

"Together we can help build a sustainable solar-powered water system on a farm in northern Uganda."

*Andrew Briggs*

## Impact

- Increased food security for 100+ humans and animals
- Year round food production
- Introduction of aquaponics tilapia fish farming
- Increased educational advancement due to power access enabling computer-projector training along with other educational opportunities

Freedom in Creation is a 501c3 that inspires healthy sustainable community with art, water and global education. Through grassroots community development, we empower youth and women with art as therapy and entrepreneurship education, enabling them to bring vital resources to their communities. Connecting development programs with international classrooms, we enrich global education with participatory and service learning.

*Pump up the Volume!*

Freedom in Creation Darley

Children on the farm in Gulu

The image is a promotional graphic for a water project in Uganda. At the top, it features the text 'FREEDOM IN CREATION & DARLEY NEED YOUR HELP TO' in white and yellow on a blue background. Below this, there is a circular inset image of a goat wearing red headphones, with the handwritten text 'Pump up the Volume!' next to it. To the right of the goat are the logos for 'Freedom in Creation' and 'Darley'. The main part of the image shows a group of about 15 children, mostly boys in green t-shirts and some girls in blue t-shirts, standing in front of a light blue wall. They are holding up a large, colorful banner that features a globe and various symbols. The caption below the image reads 'Children on the farm in Gulu'.

committed to support the world water crisis by providing high quality, safe and innovative products with unmatched commitment and service.
