

TMC Names Hubgets the 2016 Communications Solutions Product of the Year Award Winner

Hubgets was recognized by TMC for increasing productivity at work through converged team communication and collaboration.

WILMINGTON, DE, UNITED STATES, December 1, 2016 /EINPresswire.com/ -- [Hubgets](#), Inc. announced that TMC, a global, integrated media company, has awarded the 2016 Communications Solutions Product of the Year Award to Hubgets, the instant communication platform that makes businesses more productive.

Hubgets turns communication into a valuable experience by enabling teams to connect, bond, and collaborate in real time with more focus and less noise. The instant collaboration platform, available as a service and in the private cloud, offers one-to-one instant messaging and group chat with file transfer, voice and video calls, screen sharing, interactive boards with media support as well as advanced business telephony like IVRs, conferencing, agents and call center features. Relieved from the burden of excessive emails and redundant meetings, team members control the communication flow and manage their time at work more efficiently.

"For today's flexible and mobile workforce, Hubgets takes a different approach to the communication process and focuses on the user. With the help of Artificial Intelligence, the platform calculates a real-time Happiness Index for all team members. Based on this index, Hubgets makes decisions to relieve frustration at work and boost the team's [productivity](#). For example, it reduces the level of interruptions so that people gain more focus while still being reachable and engaged," said Hubgets COO, Elena Carstoiu.

Instant communication that makes businesses more productive

Hubgets awarded 2016 Communications Solutions Product of Year

Instant team communication and collaboration via chat, voice, and video

"Congratulations to Hubgets for being honored with a Communications Solutions Product of the Year Award," said Rich Tehrani, CEO, TMC. "Hubgets is truly an innovative product and is amongst the best solutions brought to market in the past twelve months that facilitates business-transforming voice, data and video communications. I look forward to continued excellence from Hubgets in 2017 and beyond."

With Page by Hubgets, the platform reshapes the concept of [business communication](#) and simplifies workflows. The web page available for each team members is a digital business card that enables instant contact with partners, leads, and customers through secure chat with file transfer, voice, and video in the browser. Partners and customers do not need a Hubgets account or a specific piece of software to establish contact. Team members communicate without exposing personal information such as email address or phone number. Hubgets automatically stores and converges both internal and business communication, building a knowledge center that team members can instantly access and learn from.

The platform delivers communication and collaboration to teams of all sizes, and it's free for those with less than 20 members. Startups, SMBs, and enterprises have access to customized service plans to suit their team dynamics and business needs. Special licensing for Service Providers is also available.

About Hubgets

Hubgets is an instant communication platform that makes businesses more productive. It enables people to communicate via chat with file transfer and screen sharing, voice, and video, turning work experience into searchable knowledge.

Hubgets uses artificial intelligence to measure people's mood at work and adjusts communication flows on the individual level to reduce frustration and make the entire team more productive.

Page by Hubgets is a web business card available for each Hubgets user. Contacting the card owner is as simple as browsing the web - chat, voice and video instant communication is available for free, in the browser. With Page, Hubgets users don't need to give out their phone number to be reached by business partners or customers.
