WiseGuyReports.Com Publish a New Market Research Report On – “OSS-BSS Software 2016 Global Market Expected to Grow at CAGR 18.52% and Forecast to 2020”.

PUNE, INDIA, December 5, 2016
/EINPresswire.com/ --

The analysts forecast the global [OSS-BSS software market](#) to grow at a CAGR of 18.52% during the period 2016-2020.

OSS refers to a specialized software through which a telecom network supports various components within the system such as network operations, service management, and provisioning services, whereas BSS refers to the software that handles tasks such as customer support processes, billing services, order management, and fraud management. These systems support in streamlining operations and implementing service fulfillment. These applications are extensively helpful to manage complex networks and IT infrastructure, service delivery, and customer support. Therefore, telecom operators are investing billions of dollars in revamping their traditional network solutions.
