

Water Treatment Chemicals Market Expected to Reach USD 26 Billion by 2022 at a CAGR of 5%

Global Water Treatment Chemicals Market by Type (Corrosion Inhibitor, Scale Inhibitor), Application (Municipal Water Treatment) and by Region – Forecast to 2022

PUNE, MAHARASHTRA, INDIA,
December 5, 2016 /EINPresswire.com/ --

Market Research Future published a Half Cooked Research Report on Water Treatment Chemicals Market. The [Global Water Treatment Chemicals Market](#) is expected to grow over the CAGR of around 5% during the period 2016 to 2022.

“ We enable our customers to unravel the complexity.”

Market Research Future

The key players in market are GE Water & Process Technologies, Ashland Inc., Kemira Oyj, Ecolab, The Dow Chemical Company, Akzo Nobel N.V., BASF SE, Buckman Laboratories International Inc, Solvay S.A.”
Market Research Future

Market Highlights

Water treatment chemicals are used for the treatment of water in boilers, cooling towers, and effluents from industries and sewage treatment plants. The rising population in emerging countries has become the reason for the growth of the global water treatment chemicals market. Power generation and oil & gas industries extensively use water treatment chemicals. The restraining factors towards the growth of the market are increasing water treatment chemicals prices and presence of alternate treatment technologies. Asia-Pacific contributes largely to the market, followed by North-America and Europe. The Global Water Treatment Chemicals Market is projected

from around USD 19.80 Billion in 2015 to cross USD 26 Billion in 2022, at a CAGR of approximately 5% in the forecasted period.

Key Players In Market

The key players of global water treatment chemicals market report include:

- GE Water & Process Technologies
- Ashland Inc.
- Kemira Oyj
- Ecolab
- The Dow Chemical Company
- Akzo Nobel N.V.
- BASF SE

- Buckman Laboratories International Inc
- Solvay S.A
- Cortec Corporation

Taste the market data and market information presented through more than 85 market data tables and figures spread in 140 numbers of pages of the project report. Market Research Analysis

The market is highly application based. The key factors contributing to the growth of the Global Water Treatment Chemicals Market is the increasing world population, which fuels the demand for treated water. This is further stimulated by the increased industrial activities. The market is expected to have higher growth rate as compared to the previous years. The share is attributed to the growth industry, especially from the regions of India and China. Asia-Pacific is the fastest growing region for the water treatment chemicals market, followed by North-America and Europe. The main reason for the growth in the region include increasing awareness about water borne diseases and scarcity in the pure and clean drinking water.

Scope of the Report

This study provides an overview of the global water treatment chemicals market, tracking two market segments across four geographic regions. The report studies key players, providing a five-year annual trend analysis that highlights market size, volume and share for North America, Europe, Asia Pacific, and Rest of the World. The report also provides a forecast, focusing on the market opportunities for the next five years for each region. The scope of the study segments the Global Water Treatment Chemicals Market as type and application. On the basis of type it is segmented as corrosion inhibitor, scale inhibitor, biocides & disinfectant, chelating agents, anti-foaming agents and others. On the basis of application it is widely used in municipal water treatment, food & beverage, chemical processing, oil & gas, power generation and others.

About Market Research Future:

At [Market Research Future \(MRFR\)](#), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.

In order to stay updated with technology and work process of the industry, MRFR often plans &

conducts meet with the industry experts and industrial visits for its research analyst members.
