PUNE, INDIA, December 6, 2016
/EINPresswire.com/ --

The analysts forecast the [virtual schools market in the US](#) to grow at a CAGR of 29.02% during the period 2015-2019.

A virtual school operates on an online learning platform and offers courses pertaining to various fields. These schools have a core curriculum and provide students with an opportunity to learn at home from certified teachers. Students can earn credits on the completion of a course in the desired field, and he/she is promoted to the next grade based on the credits earned.

Although virtual schools are a new concept in the education industry, they have quickly gained popularity, and have become one of the fastest growing opportunities in the K-12 segment. More than 40 states in the US have developed virtual schooling facilities through combined efforts of public initiatives and private funding. They offer diverse course curriculum at a relatively lesser fee than traditional schools.
